First Mail Bid Sale of NUMISMATIC LITERATURE

AMERICAN NUMISMATIC SOCIETY

JUN 2 1987

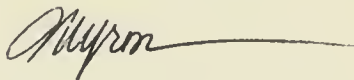

Sale
Closes
July 11, 1987

Hello and welcome to our 1st Mail Bid Sale. Both Ken Lowe and myself have tried to present this Sale to you in a humorous as well as educational vein. Ken has spent the last few weeks pulling books and pamphlets out of the catacombs and cataloging them, and has taken much time to research and describe even the most obscure of items. This may not be particularly rewarding in the fiscal sense, but we feel that many parts of this Sale will be invaluable research, especially to those who have more than a passing interest in Volume I, Number I's, First Editions, pilots and other firsts. There well over 200 listings in this area, and Ken never finished rummaging through the dungeon.

Thanks to everyone who ordered from our 1st Fixed Price List. It was more successful than expected, even if we screwed up a couple items and were desperately slow with 5 or 6 orders. The patience of our customers is certainly a great relief to me. Maybe I'll get it right this time.

The art work on our front cover comes from Marilyn Antram of Jacksonville, Florida. She was overly generous---I'm not nearly that holy according to my wife. Of course, I've also only seen Ken in a suit one time, and that was when he was invited to the Norwebs for dinner. The computer, on the other hand, has been fairly represented by the artist.

A handwritten signature in cursive script, reading "Myron", followed by a long horizontal flourish line.

TERMS OF SALE

1. This is a mail bid auction sale. All lots will be sold to the highest bidder. Bids will be treated as limits and lots will be purchased below the maximums (really!) where competition permits. Lots will be sold on the day indicated.
2. Six and a half (6 1/2) % state sales tax will be added to the cost of all lots delivered in Ohio.
3. Mail bid auction sales are not approval sales. No lot may be returned without written permission, and such permission must be requested within three (3) days after receipt of lots. By submitting your bids you agree to the Terms of Sale herewith set forth.
4. Bidders unknown to us must supply acceptable credit references or a 25% deposit to assure entry of their bids.
5. There is no additional charge or commission for executing your bids. All postage, insurance, and shipping charges, however, will be added to invoices. There will be a 50 cent charge per lot for packing and processing.
6. Terms of sale are strictly cash in United States funds. Payment must be made immediately upon notification or upon receipt of material.
7. Lots to be mailed to addresses not in the United States or its Territories, will be sent only at the risk of the purchaser. When possible, insurance will be obtained; it must be noted, however, that adequate insurance is often not available by surface mail.
8. All books are as described. We acknowledge the possibility (Boy, do we!) of errors and typographical mistakes, and any errors on our part will be cheerfully corrected. We cannot, however, be responsible for your errors; please check your bid sheet carefully.
9. Title to all lots remains with the cataloguer until paid for in full. We reserve the discretionary right to withhold delivery of lots until full payment has been received. We reserve the right to reject any bid from any bidder which we deem is not made in good faith. We reserve the right to reject any bid which, in our opinion, is ridiculous.

THE MONEY TREE PROUDLY ANNOUNCES
MAIL-BID SALE NUMBER 1.5

(which ought to wreak havoc with the Gengerke numbering system)

Yes! In the interest of providing innovative services to clients and consignors alike, The Money Tree is announcing another mail-bid sale. "How can they do it?" you ask. "Where do they find the time? Are these guys on the ball, or what?" As astute businessmen, we decided to damn the cost, full speed ahead. To show our lightning-like efficiency, you already have the new catalogue. "How is that possible?" you ask. Easy! What we are going to do is to put up for bids all the unbid items from the July 11 sale.

Why are we doing this? We each remember that in checking PRLs of everybody else's sales there were always items that we wanted, didn't bid on, and inevitably the lots ended up going for much less than we would have (or should have) bid in the first place (Not to mention the real reason we are offering you a second chance, we're greedy and lazy; we want your cash and it is a pain to pack up and mail the unbid lots back to the consignors).

So, Bunky, here's the scam. We will consider bids on any unbid item (listed as NB in the PRL). Give us a call; drop us a line. If we think your bid is reasonable (or even unreasonable but bearable), it's yours. Right then. No waiting. No competing with anybody else. Go ahead. Give it a shot. What can you lose? It's simple. Find all the NBs you like. Pick an amount you can live with. Some stuff we might let go for any amount. For others, we might accept 50% or 40% or 33% or 25% of estimate.

Phone us. Write us (please, no crayon this time). Make us an offer. Be a sport. What can you lose? Many of you did write that you respected our efforts and didn't want to insult us by submitting "lowball" bids. For this sale, feel free to insult us; "lowball" your gluteus maximus off. We will offer these lots until Labor Day. Because you will not be bidding against anyone else, you can receive an immediate response. So bid early and often. Don't fail to miss it if you can. (We are also considering next Mail-Bid Sale #1.75; everything that is still left from M.B.S. #1.5, but...)

THE MONEY TREE MAIL-BID SALE #1: AN ANALYSIS
OR
THE MOST SUCCESSFUL SALE EVER HELD

Yes! It is true. The Money Tree's first mail-bid sale of numismatic literature proved to be the most successful sale we have ever held. In addition to the petty pecuniary aspects of the sale (a mere bagatelle), we were overwhelmed (I was expecting only to bewhelmed) by the universally exuberant, positive, encouraging, and flattering correspondence we received about our offerings and approach (Thanks, Mom). We really do appreciate your kind comments.

Next, the results of the sale. Our analysis may seem to be foolhardy, bold, or an outright lie, but since you have the PRL for the sale, we can't very well contradict the outcome; so, for all you statistics freaks and myopics, here goes. Of the 545 lots, about 300 received acceptable bids. (For example, in good conscience, Myron couldn't let the Canadian Antiquarian and Numismatic Journal estimated at \$975.00 go to the highest submitted bid at \$9.00. I thought it was a reasonable bid, but Myron said I had to bid at least \$15.00.) In most cases, we couldn't accept bids of less than 25% to 35% of estimate in good conscience, and

still feel we were being responsible to our consignors. The total of the sale was about \$8000.00.

You will notice a slew of "No-Bids" on the PRL. We could have lied and put in a bunch of fictitious bids to make ourselves look good, but our caricatures are on the cover; and lying ain't going to make us look like Tom Selleck. Rather, (or maybe Brokaw) as honor graduates of the Ivan Boesky School of Ethics, we will tell it as it was.

HIGHLIGHTS

While the first 208 lots of "Number Ones", received favorable comments, we didn't really expect a bonanza (or even Gunsmoke). Unfortunately, we were completely correct. Of note, was the heavy competition on lot #63, the Bowers and Ruddy Penn-New York sale, even with the listed defects. For the record, the bid was rolled back to \$70; you may all be comforted that this handicapped catalogue is going to a loving home. Other early Bowers material was also bid on enthusiastically; the first edition High Profits... was actively bid to \$14. Also the Empire Review #15 went for \$50 and B&R Rare Coin Review 15 sold at \$55. To return to earth, Empire Review #18 did not get a single bid.

1. Lot #89 was quite popular; virtually all the advanced collectors really wanted the first Adams' Coin Cabinet and bid it to \$36.00.

2. Surprisingly, the first CCJ was very active eventually bringing \$23.00! The first edition Redbook in the library binding did in fact go to a collector for \$70.00 who specifically wanted a durable research copy.

3. We were stunned at the competition for the Meloche Canadian collection sale, lot #304 which was bid to \$45.00. (Go figure!). The two most eagerly sought moderately priced lots were Breen's Metropolitan...Journal and the Superior Pradeau sales.

4. Foreign auction sales and other literature dealing with ancients and medievales brought strong prices; U.S. numislit is not the only looked-for material.

5. Strong prices were received on scarce and long runs of periodicals from advanced collectors. It seems that the scarcity and importance of periodicals has been realized. For example, the run of Stack's Fixed Price Lists were eagerly sought by some well-known collectors.

6. We can also safely say that nobody shows ANY interest in Yeoman Whitebooks and Brownbooks.

7. The early Lepczyk sales were also quite popular; their scarcity is being discovered and appreciated.

8. Of no surprise was the popularity of Breen's Proof book; we had three copies consigned which went for \$61.00 each. (The top bidder bid \$75.00; with the second underbidder at \$65.00. Honestly, we really were able to reduce about 45% of the successful bids).

9. One highlight was Kraay's Greek Coins. Despite being rebound (or maybe because of Alan Grace's artistry) the lot went for \$235.00 on very active bidding.

10. Another highlight was the enthusiasm shown for Zieber's rare first edition which went for \$160.00. (Unbelievable!)

11. Finally, we were proud to offer (much less to handle) Steigerwalt's Illustrated History of United States and Colonial Coins. We received many phone calls (unfortunately, most were for a car dealer with a similar phone number) from bidders about this lot which eventually went for a bid substantially reduced to \$280 over an underbid of \$275.

LOWLIGHTS

Well, there were these 240 unbid lots....

THE MONEY TREE NUMISMATIC LITERATURE
MAIL BID SALE I JULY 11, 1987
PRICES REALIZED LIST

NB generally means no acceptable bid was received. For the first 208 lots, in most cases no bid at all was received. NOT ACCEPTABLE usually means less than 25% of estimate.

W/D in normal auctions means withdrawn, generally because of faulty descriptions or questionable authenticity. In this case, it means that I can't find the blasted thing; naturally, lot 207 was a popular item with our bidders.

We also listed lot 395 at [246.00]. That is merely the total of lots 384 to 394, inclusive, for anyone who was curious what the Gibbs sales brought.

No lot means a technical problem occurred; I fouled up again.

FOREWORD

We welcome you to our first mail bid sale of numismatic literature. We are quite proud to offer you some noteworthy items: a hardbound copy of the Robinson Brown Sale of Large Cents, a complete set of Coin Galleries' Numismatic Review and Price List, an extensive run of The Canadian Antiquarian and Numismatic Journal, 17 of 18 Howard D. Gibbs Collection Sales, a nearly complete mint set of Lepczyk catalogues, an 1851 Eckfeldt and Du Bois, Kraay and Hirmer Greek Coins, and Steigerwalt's Illustrated History of United States and Colonial Coins.

Additionally, we are offering over 200 lots of "Firsts": First editions of numismatic books, journals, and periodicals; and first auction catalogues issued by individual firms. We think this is unparalleled.

You will notice that we have annotated most lots, rather than merely listing them. We realize that in doing so, we have sacrificed additional listings. But because the field of numismatic literature is so large, too often collectors miss opportunities to obtain important or desirable works since they are not familiar with the particular item. Also, you will notice that often we will extensively discuss seemingly unimportant or inexpensive items. (Well, it's our catalogue, and we will darned well do as we please.) We hope to use our catalogues not only to sell, but also to inform, and to convey some of our enthusiasm, opinions, and sense of the absurd.

Also, we would be remiss if we did not thank George Kolbe for letting us plagiarize the heck out of his Terms of Sale. (If you're going to steal, then steal from the best.)

Sincerely,

Myron Xenos - Owner of The Money Tree, ANA member since 1961, life member of Penn-Ohio Coin Club, NBS, TV star.

Ken Lowe - Editor, ANS, EAC, NBS, ombudsman, factotum, scribe.

THE FIRST OR ONLY AUCTION FOR EACH FIRM

A few ground rules are necessary here. The basic authority for the listing in fact being the firm's first auction (lacking some statement like, "This is our first auction, dummy!") is Martin Gengerke's American Numismatic Auctions, 7th edition, March 27, 1987. Obviously, we have made mistakes (we hope none too grievous). So to guarantee that there will actually be 80 first auctions here, we are going to list 87, thus allowing ourselves a margin of error consistent among the various coin grading services.

An important note is called for here; we will have some additions and corrections to Gengerke's magnificent tome here. None of these are meant to disparage Mr. Gengerke or his work in any fashion whatsoever. His catalogue is invaluable. We have sent these adjustments to Mr. Gengerke prior to the release of this auction. With a subject this extensive, there will always be new discoveries. We recommend Mr. Gengerke's publication most enthusiastically and with the deepest respect.

63. The Penn-New York Auction Company (Bowers and Ruddy). **AN AUCTION SALE OF RARE UNITED STATES COINS.** July 29, 1957. 31 pp., 955 lots. ill. Small format. CaC. Because of the importance of this lot, the first auction of Bowers and Ruddy and the only one under the Penn-New York name, we will be giving an especially detailed description. First, the bad news (and it is bad). There are two MAJOR defects. On page four, the listing for lot 46 has been cut out affecting not only this, but also the bottom third of an illustration of a proof 1846 half cent. The cutting is 1/4 in. high by 5 in. long. Next, and even worse, on page 7, the entire listing for lot 114 which must have included an illustration has been cut out, also eliminating lots 150-164 (Indian cents) on the other side. This cutting is 2 in. high by 5 in. long. There is also a vertical fold bisecting the catalogue. The other three examples I have seen of this catalogue also had this defect (I feel like I am performing an autopsy).

Offerings included 50 half cents, a pictured Jefferson head cent, 70 large cents, and 22 "gem" bust halves (by today's standards "gem" means MS-65 plus or minus the annual inflation rate of Brazil). This catalogue is extremely scarce and in the highest demand. The catalogue would grade fine if not for the defects (but without my defects I'd be Larry Bird). A defect-free copy would bring well over \$150.00 dollars. This is more than adequate as a space filler. The original production could not have been extremely large; the number extant must be minimal. (50.00)

64. Phillips, Jr., Cy (S C Coin & Stamp Co., Arcadia, CA) **MAIL BID SALE 1.** December 15, 1978. A one page mimeo'd sheet with 105 lots of Civil war storecards and merchant tokens. Noteworthy as it is unlisted in Gengerke and as this is the type of mailing that does not get saved. Without our having any proof, I would not be surprised if this is very rare. Correspondingly, who really cares? This does not have runaway bidding potential. Truly for the specialist in number ones. VF. (1.00)

(10.00)

80. State Rare Coin Auctions Inc. (Boston, MA). **THE INAUGURAL SALE.** 12mo. CaC. 75 pp. 854 lots. 6 color plates. Ills. A comprehensive offering in high grades with three important highlights. First, the unique 1783 Constellatio Nova proof, well-catalogued; second, an 1871 set of patterns in copper, trime to dollar; finally, the unique Judd 1663, 1880 \$5.00 in copper, ex-Farouk. Fine. (10.00)

81. Towne Coin Company (RI). **OUR FIRST PUBLIC AND MAIL AUCTION SALE.** January 18, 1958. 52 pp., 1320 lots. 4 plates. Small format. CaC. 200 lots of large cents including all dates, reasonably well catalogued by Sheldon and Newcomb varieties although the plates are not much help. Some other neat offerings: an 1863 proof set (est. @ \$400.), a Pan-Pac set (est. @ \$4500.), a Pan-Pac octagonal slug, neat Canadian. This would get a lot of press if it were held today. Covers faded, otherwise Fine. (12.00)

82. Trans-World Coins. (San Diego). **MEXICO.** August 29, 1965. 19 pp., 748 lots. PRL. 16 plates. Small format. Glossy CaC. 84. W.H.C.C. (Shaker Heights, OH). **AUCTION SALE.** March 4-6, 1966. 16 pp., 284 lots. Small format. CaC. Here's another useless item. The auction is included in the 5th annual Warrensville Heights Coin Club Show program. This is currently unlisted. This will probably be the only time this puppy ever gets catalogued. The auction committeemen were Bill Godley and Lew Elton. The offerings are pedestrian except for an "unique (?)\" unc 1930 quarter struck on a dime planchet. Fine. (\$1.00) but Myron wants to estimate it at (\$4.00)

85. Edward J. Waddell, Ltd. (Washington DC). **GREEK AND GREEK IMPERIAL BRONZE COINS. AUCTION 1.** December 9, 1982. 54 pp., 585 lots. 37 fine plates. PRL. All lots illustrated obv. and rev. superlatives have been eliminated; words like choice, gems ... carefully avoided. Before the standard of grading...in England before 1939...which is the right standard...can be used again, some step-by-step training of the public is necessary." A useful and charming catalogue. Scarce. Slt. fading otherwise Fine. (\$15.00)

These are definitely reference sales of great importance. Both near Mint. (25.00)

PART II - FIRST EDITIONS OR NUMBER ONES

This section features books, periodicals, journals, fixed price lists, and house organs (no livers or kidneys). In order to qualify as a first edition, a second edition must have been issued, or in some cases First edition must specifically be printed. In most cases Volume 1, Number 1 will be printed on the item. Some firms are not concerned with making our job easier by specifically labelling their debut efforts. So our vast knowledge (individually our knowledge is half vast) is called into play. You may notice some lots having not only the first editlon, but also the second or more; this is to guarantee that we aren't just dreaming these up. (It's more like an hallucination.)

88. THE ACCUGRADE MONTHLY PRICE GUIDE ON MORGAN AND PEACE DOLLARS. Volume I, No. 1. December 1984. Quarto. Glossy pc. 8 pp. Produced by Alan Hager, founder of Accugrade. "A price for every strike, every lustre, every date every grade." Do you need "bid & ask" for an 1881-S, MS-63 with a flat strike and cameo surfaces? Currently, with 11 grades of unc and nine variables per grade, each issue would have to be the size of the Manhattan phone book. VF. (5.00)

A "boom" fixed price list. 33 pages devoted to exceptional British graded by Sheldon numbers. (The rumbling noise you just heard is the founders of the Royal Numismatic Society in unison rolling over in their graves.) The numbers in the price column must be zipcodes; they certainly can't be prices. A very pretty, deluxe catalogue. VF. (10.00)

As mentioned in our first price list, this first printing sold out in a month. Despite being nominally about coin investing (shudder!), Bowers cannot write anything that isn't scholarly and important. His advice is essentially based on common sense: build a collection, don't speculate. The information herein is solid: from patterns to rarities, from personalities to anecdotes (from Natchez to Mobile). Flat out mint condition and quite scarce. (15.00)

151. **THE INTERNATIONAL GREEN SHEET.** Vol. 1, No. 1. January, 1981. "PROMOTIONAL COPY" stamped on first page. 8 pages. Paper. An attempt during the boom to give a "Greysheet" parallel to the foreign coin market. Informative, ambitious, but futile. Type and commem. price ranges issued on a monthly basis (like trying to put out a Krause telephone book monthly). Edited by Elvin Silverman. Some notes inside. Folded when mailed. Fine. (5.00)

152. **THE INTERNATIONAL GREEN SHEET.** The first five issues. Vol. 1. Nos. 1-5. January to May 1981. Unlike the above lot No. 1 does not have "PROMOTIONAL COPY" written on it. Which one is more collectible? Who knows, who cares? BUT in 2087 can you imagine the controversy that will be generated by bibliophiles and other absurdists? This really was an attempt to promote world coins by comparing them to the relative scarcity of U.S. coins. If you hold your ear up to the May issue, you can hear echoes of a bubble bursting. Still valuable as a record of that exciting time in Wonderland. Fine. (15.00)

153. The International Israel Numismatic Society, Inc. **JOURNAL OF ISRAEL NUMISMATICS.** The first two volumes, complete. For the connoisseur: Faberge silver cigarette case, 4 Tiffany lamps, set of mint Graf Zeppelin stamps, and a slew of antique silver and glass objets d'art (kind of a Sears catalog for Imelda Marcos). VF. (10.00)

155. **THE IVY NUMISMATIC MONTHLY.** Volume I (when the 1 is a Roman numeral, it means the contents are expensive). September, 1980. Octavo. Pictorial CaC. (28 pp.) 6 glossy color plates. Whoa, here's that 1802 Bust Dollar from the previous catalog lot. 1845 Proof Half Eagle at \$125,000. 1921-S Walker at \$49,500. Another "Boom" issue. All pretty coins. Today all are probably slabbed. It might be interesting to compute the prices and grades of this offering today. Watch out below!! VF. (7.50)

156. **THE IVY NUMISMATIC JOURNAL UPDATE.** 11 consecutive issues from the initial issue (probably November 1981) through to Volume II, No. 10, December 1982. 160. Kemm, Theodore. **THE OFFICIAL GUIDE OF UNITED STATES PAPER MONEY.** First Edition. 1968. 16mo. Hardbound with DJ. 160 pp. Ills. and Vals. (where English people hike). The only hardbound edition and as such quite useful because the later paperbacks are flimsy. Note: It says Mr. Kemm, as a cashier in a New York City hotel, found an odd looking note and started collecting U.S. currency. With all the odd looking things in New York City hotels, he might have become an insectologist or Dr. Ruth's mentor. VF. (5.00)

161. Klawans, Zander. **AN OUTLINE OF ANCIENT GREEK COINAGE.** (the first two editions). 1959. 16mo. Red cloth. 205 pp. Ills. Also, the 1964 second edition. Same description as the first. A most valuable introduction for the

adult. Included: an illustrated guide to symbols and city names, and Greek kings and petty rulers. Klawans 1959 preface is fascinating, modest, and witty. His 1964 preface is correct and dignified (and boring). Ah, success. However, the 1964 preface does say, "In these times, the science of numismatics stands in danger of losing its status as an engaging hobby because of intensified speculative elements." History repeats itself, ad nauseum. First edition, Fine; the second, VF. For the pair. (10.00)

Produced by Dave Cannon, an offering of interesting foreign with extensive commentary by this expert (or is it expert commentary by the ubiquitous). Also, List No. 2, December 1975, 16 pp. Cannon's expertise (except for Hoosiermania) is always valuable. Dave, a world coin maven, currently operates (I hope the A.M.A. never finds out) his own successful numismatic and humor business in Cincinnati. Both lots VF. (10.00)

170. New England Rare Coin Galleries. **NEW ENGLAND WORLD COIN SELECTIONS**. Number 1. May 9, 1980. 8 page, large glossy format, with two color plates. 250 lots of world coins at boom prices. Emphasis on Crowns. Only the prices are more breathtaking than the coins. VF. (7.50)

172. New England Rare Coin Galleries. **INVENTORY SELECTIONS**. Vol. 1, Number 1. January 22, 1979. 24 pp. 2 color plates. Large format. Pc. This is not really the first one despite what they say. It has to be at least number 55. However, it is the first one that was on a subscription basis. Extensive stock list with expensive gold accompanied by annotations. We cannot vouch for the accuracy of their grading. VF. (6.00)

173. New England Rare Coin Galleries. **THE NEW ENGLAND REPORT**. Vol 1, No. 1. June 1983. 6 pp. Pc. A one page market update, with five offerings of sets of coins. In view of recent events, the market analysis of "the world's largest and most respected rare coin firm" is fascinating. Fine. (5.00)

Not only are the early issues scarce, but they do feature important articles by major figures: Akers on gold, Ray Merena on type coins. In a profile on Mr. Merena, it mentioned he is a Graduate of Cornell in Mechanical Engineering. Also, I would think that he would want all copies of his 1973 picture destroyed, however. Fine. By this time the organization had 425 members. Original copies of these early issues are in great demand. Except for the notation on No. 1, these are better than VG overall. (25.00)

197. THE SWIA TEK NUMISMATIC REPORT. Volume 1. No.1. June, 1982. 8 page newsletter. Investment outlook from the time of the Garrett II sale. Investment recommendations for four commems. Fine. (6.00)

198. (Taylor, H.C. and Somer James) The Canadian Numismatic Publishing Institute. A GUIDE BOOK OF CANADIAN COINS, CURRENCY, & TOKENS 1959-1960. 1958, first edition. 16mo. Glossy CaC. 152 pp. Ills. Vals. Served as a Charlton Guide because the Charlton was printed in the U.S. by Whitman and was not as comprehensive as it had been previously. A valuable 57 page illustrated guide to tokens. Important reference. Scarce. Back cover waterstained. Contents VG. (10.00)

199. Taylor, H.C. and Somer James. THE GUIDEBOOK OF GREAT BRITAIN'S MODERN COINS 1860-1960. First Edition. 1961. Glossy CaC. 16mo. 88 pp. Ills. Vals. Fascinating table of shilling and pence decimal equivalents to the pound: 15 shilling 7 pence is .77917 of a pound. Valuable for the mathochist. Fine. (6.00)

200. TODAY'S COINS. Vol 1 Issue 1. October 1, 1972. Pp. 48 pp. A magazine similar to COINAGE. 95% ads. Published by Fred Green, edited by Mary Glenn, mailed from Kermit, Texas. Another publishing metropolis. But then what about Iola, Wisconsin and Sidney, Ohio? Also, Issue 2, October 15, 1972. 32 pp. Articles: John Kamin, "O-Mint Silver Dollar Story 1879-1885" and Maurice Gould on treasure hunters and metal detectors. Both issues yellowed, cheap newsprint. Scarce. Fine. (10.00)

201. Toy, Raymond. WORLD WAR II MILITARY CURRENCY. 1964. 12mo. CaC. 50 pp. Ills. Vals. Slight bend in front cover. First two pages dampstained. Scarce. Better than VG. (7.50)

202. Walker, Doris. **A GUIDE BOOK OF PHILATELIC NUMISMATIC COVERS.** First Edition - 1970. (160 pp.?) 16mo. CaC. Ills. "your guide through the phenomenal hobby" (?). Lists and describes 160 PNCs. Published by 99 Company of San Clemente, CA - a formerly famous place. Apparently unused, but that belabors the obvious. VF. (5.00)

203. Douglas Weaver Rare Coins. (**FIXED PRICE LIST**). Volume 1. Number 1. September 1975. Glossy, large format. 32 pp. Ills. U.S., Ancients, and Foreign. 4 1793 cents, nice crowns - especially Spanish. Fine. (6.00)

204. **WHITMAN NUMISMATIC JOURNAL** Vol.1, No. 1. January 1964. CaC. 16mo. 64 pp. This is an opportunity for those who do not want to buy the whole year or five year set, which will be offered later in this auction, just to get the first issue that always seems to be missing. Also, enclosed is the separate promotional four-page announcement which has the identical cover to the first issue and contains, "Why Another Coin Periodical?" This is the first copy of the promotional announcement I have seen (but then I've never seen a purple cow). Both copies are VF. (10.00)

205. **WORLD COINS.** Volume 1. Issue No. 1. January 1964. CaC. 16mo. 48 pp. As above, rarely offered as a single. Most would rather stick you for a whole year of the whole set from 1964 to 1976. We wouldn't think of it. We're not smart enough. All seriousness aside, a complete set will be offered later in the auction. Important article on the Birmingham, England mint - the Heaton mintmark. Better than Fine. (5.00)

206. Yeoman, R.S. **A GUIDE BOOK OF UNITED STATES COINS.** 1946. First Edition. The first edition REDBOOK. The good news: all the pages are here; there is no writing inside; it is genuine. The bad news: it is in a library binding; the front is torn halfway. It is intact and the library binding is tight. The contents are VG. Copies like this are actually quite in demand. Here is a copy you won't be afraid to use. Now you can put the good copy you paid too much for back on the shelf. This is a true research copy. (60.00)

207. Young, Leo. **NORTHERN CALIFORNIA NUMISMATIC ASSOCIATION CONVENTION AUCTION SALE CATALOG.** September 7-9, 1962. 82 pp. 2636 lots. Small format. CaC. Yeah, I know the "first auctions" are in the earlier section, but this is the first auction of the NCNAC so we decided to put it here. 4 1793 cents, a 1794 dollar, and some other goodies. VF. (5.00)

208. Zoell, Hans. **CANADIAN COIN VARIETY CATALOG.** (3 editions). 1st EDITION 1961 (1960, second printing). 12mo. CaC. 40 pp. Ills. and Vals. Glossy CaC. 120 pp. the most useful edition. VF. Also **MAJOR COIN VARIETIES, THIRD EDITION, 1964-1965 PART ONE.** (New cover title). 1964. 12mo. Glossy CaC. 48 pp. VG. I know that the first edition is not the first printing, but the referee said it was okay. For the three books (12.00)

This brings to a close (mercifully and euthanasially) our section of "Firsts". To the best of our knowledge (much ado about nothing), this is the most extensive offering of numismatic literature "firsts". These are not the only "firsts" that are in this auction. Others of note will be offered in other consignments. Incidentally, Margo Russell, the former editor of COIN WORLD, told us that she collects "firsts". I am a Cleveland Indians fan; they haven't collected a first since 1954.

CONSIGNMENT II

This consignment features many important, scarce, and in-demand items which cover a variety of topics. There should be something here for everyone. (Translation: bid extravagantly; Myron's daughter is getting married this summer...well, you get the picture.)

209. Adams, Edgar and William Woodin. **UNITED STATES PATTERN, TRIAL, AND EXPERIMENTAL PIECES.** 1959 reprint of the 1913 edition (of which only 300 were printed). 12mo. Blue cloth. 196 pp. Ills. The original was ANS publication number 1. Still useful as a supplement to Judd. Fine. (15.00)

210. Adams, John W. **UNITED STATES NUMISMATIC LITERATURE: VOLUME ONE.** 1982. Large octavo. Quarter cloth and boards. 272 pp. Ills. #496 of 500 numbered copies. Printed on acid free paper. This magnificent tome is an indispensable reference for nineteenth century auction catalogues and their cataloguers. Both scholarly and readable, its importance cannot be overstated. Very scarce and in great demand. A mint copy. (85.00)

211. American Numismatic Association. **SELECTIONS FROM THE NUMISMATIST.** All four volumes. Each is octavo in blue cloth. United States Coins. 1960. 301 pp. United States Paper Money and Miscellaneous. 1960. 315 pp. Ancient and Medieval Coins. 1960. 318 pp. Modern Foreign Currency. 1961. 320 pp. Most every one has seen these; has anyone ever bothered to open one? It's amazing; no matter how beat up the covers ever are on these, the contents are always mint. These are a fine mini-library without having to pay \$2000 or more for a whole set of The Numismatist. Not only are the selections important, but each volume recommends other specific articles to consult. Near VF. (40.00)

212. American Vecturist Association. **ATWOOD'S CATALOGUE OF UNITED STATES AND CANADIAN TRANSPORTATION TOKENS.** 1963. Second edition. Octavo. Blue cloth, gilt. 431 pp. 27 plates. Standard reference. "Describes...every known transportation and parking token issued in the United States, U.S. possessions, and Canada up to August 1963...[and] gives the approximate market value." Don't tell us that there are no challenges left for the collector. Try these. Graffiti on inside cover, "Don't Sell" (which shows you how much attention we pay attention to the written word). In demand. Fine. (10.00)

213. Bell, R.C. **COMMERCIAL COPPER COINS 1787-1804.** 1963 (we wrote 1964 in our fpl; we were wrong). Octavo. Quarter cloth and green boards. 320 pp. Ills. The British trade token series is immensely popular, challenging, and mostly affordable. Many U.S. collectors have branched into these from Civil War and HTT. Important and popular. Unimportant waterstains and a noticeable scar from price sticker removal (Why do people put those blasted stickers on books?) Overall VG (but my underalls are mint). (15.00)

214. Bell, R.C. **COPPER COMMERCIAL COINS 1811-1819.** 1964. Quarto. Brown cloth. 238 pp. Ills. Again, important for the series. Covers bumped at corners. Tiny split at top of spine. A few markings inside. The Europeans insist on lettering the spines from bottom to top; if you want your books to match in the bookcase, you've got to shelve them upside down. Invariably, the book will be upside down whenever you open it. Scarce. Overall, nearly Fine. (20.00)

215. Bowers, Q.D. **ADVENTURES IN RARE COINS.** 1979. 1st edition, 2nd printing. Quarto. 305 pp. Ills. A superior overview of American numismatics. This book clamors to be read. "Dave writes good!" VF (15.00)

216. Bulau, Alwin. **FOOTPRINTS OF ASSURANCE.** 1953. Folio. Cloth. 319 pp. Extensively illustrated. A documentary history and standard reference of fire marks. What are "fire marks"? you ask. Over three centuries ago in England, fire insurance companies affixed trade signs to buildings they insured. The tradition spread not only to America, but throughout the world. This incredible work documents and illustrates 1796 firemarks from 1649 to date. Another magnificent work. This work is underappreciated only by those who have never seen it. Fine. (45.00)

217. Bushnell, Charles. **AN ARRANGEMENT OF TRADESMEN'S CARDS, POLITICAL TOKENS, AND ELECTION MEDALS, MEDALETS, ETC. CURRENT IN THE UNITED STATES ... FOR THE LAST SIXTY YEARS.** 1960's Federal Brand Enterprises reprint of the 1858 original. 118 pp. on rectos. Includes the 4 plates of engravings. Cloth. The Bushnell comes from the incunabula of American numismatics. An affordable copy of this rarely offered original. Still useful. The reprints, from the early days of photocopying, are now scarce. VF. (20.00)

218. Carson, R.A.G. **COINS OF THE WORLD.** 1966, third printing. Octavo. Cloth. 642 pp. 64 collotype plates (no dots as on halftones, you can use a magnifying glass on these, more expensive to produce, but what else would you expect from the British Museum?). A scholarly, historical survey of numismatics: ancient, medieval, and modern. This is the number one (no exaggeration) work that should be in every numismatist's library, and should be read regularly. Important, scarce, and in great demand. (Unfortunately the people who should read this won't because the Greysheet weighs less.) Fine. (30.00)

219. Charlton, J.E. **1977 STANDARD CATALOGUE OF CANADIAN COINS, TOKENS AND PAPER MONEY FROM 1670.** 1976, 25th Anniversary Edition. 12mo. Blue flexible leatherette covers. 289 pp. Ills. Vals. 55 pp. on the token series. 164 pp. on paper money. A much sought after edition. Unglued at backstrip, still attached, easily reglued, not uncommon for this edition. Paper shows fading. Looks Fine, is VF. (12.00)

220. Clain-Stefanelli, Elvira and Vladimir. **THE BEAUTY AND LORE OF COINS, CURRENCY, AND MEDALS.** 1974. Quarto. Cloth. 256 pp. Heavily illustrated. Breathtaking color photography (the black-and-white pictures ain't exactly chopped liver). The authors "tried to highlight the human experience in all its versatile, intriguing, and fascinating ways as reflected in coins, currency, and medals." They succeeded. Covers from primitive money to modern times. As with Dave Bowers, the authors, Curators of Numismatics at the Smithsonian Institution (not "Institute") have the ability to make scholarship readable. Fine. (25.00)

221. Clain-Stefanelli, Elvira and Vladimair. **CHARTERED FOR PROGRESS: TWO CENTURIES OF AMERICAN BANKING, A PICTORIAL ESSAY.** 1975. Octavo. Pictorial CaC. 143 pp. Extensively illustrated. Another survey; a product of the Smithsonian by the then curators. Covers rubbed, contents VF. (10.00)

222. Clain-Stefanelli, Elvira. **SELECT NUMISMATIC BIBLIOGRAPHY.** 1965, first edition. Octavo. Green cloth. 406 pp. 4962 listings. Still the de facto bibliography as the new edition costs at least \$75.00 and most would rather spend the money on over-priced "tulip" coins. Fine. (12.00)

223. (Cleveland Museum of Art). **ENGLISH GOLD COINS: ANCIENT TO MODERN TIMES ON LOAN FROM THE NORWEB COLLECTION.** 1968. Octavo. Cloth. 82 pp. Ills. The Norweb collection of United States numismatica is going to be given the Garrett Collection treatment by Bowers and Merena. As a result, all Norweb numismatic material is in great demand. Each of the 82 pages illustrates, describes, and discusses one coin from ancient Britain to 1953. Just as a sample: Charles I Unite, by Briot; and 1643 AND 1644 Triple Unites. From the Introduction written by Mrs. Emery May Norweb, "If this brief introduction stimulates anyone to reading history as reflected in coins, they will have sleepless nights and stimulating thoughts." Her son, R. Henry Norweb, Jr., is the First Vice President of the American Numismatic Society. Myron and I promise not to mention our recent evening with Mr. Norweb and his wife, Libby. Fine. (20.00)

224. Coronet Coin & Stamp Co. (Manhasset, NY). **A "GENTLEMAN'S STUDY COLLECTION" OF UNITED STATES HALF DOLLARS.** nd.(1968?). 12mo. CaC. 40 pp./w 1 page addendum. 447 lots. 4 plates. A fixed price list. Important for all bust half nuts. 155 Overton varieties. 94 pattern halves. 34 proof halves from 1825 to 1891. Many purchased from Cox, Boyd, and Farouk. A magnificent listing. Scarce. Except for a tiny tear (not tear, tear; aren't homonyms wonderful reading?) at the top of reverse cover, VF. (15.00)

225. Criswell Jr., Grover C. **NORTH AMERICAN CURRENCY.** 1965 (Another first edition). Octavo. Cloth. 910 pp. Ills. A standard reference in demand in any condition. Covers slightly rubbed, contents VF. (45.00)

226. Currency Club of Chester County (PA). **TENTH YEAR ANNIVERSARY.** 1981. Quarto. Heavy CaC. 144 pp. Ills. In addition to a pictorial history, it contains a most useful 85 page "Dictionary of Syngraphics". Back cover shows sailing. Issued at \$20.00. Fine. (12.00)

227. Davenport, John S. **EUROPEAN CROWNS 1600-1700.** 1974. Octavo. Maroon pebbled cloth. 633 pp. Ills. Covers Davenport numbers 3001-5000. Undoubtedly the scarcest and most in demand of all the Davenport works. The only edition covering these talers. VF. (85.00)

228. Davenport, John S. **EUROPEAN CROWNS 1700-1800.** 1964. Octavo. Red cloth. 334 pp. Ills. Covers Davenport numbers 1001-1876. Also a scarce book, but a bit more available as it was published and distributed by Spink. Still in big demand. A well-known coin dealer keeps after us to send him every copy of this edition we encounter. Near VF. (35.00)

229. Davenport, John S. **EUROPEAN CROWNS AND TALERS SINCE 1800.** 1964. Octavo. Red Cloth. 423 pp. Ills. Covers Davenport numbers 1-996. Spine sunned, o/w near VF. (25.00)

230. Davenport, John S. **GERMAN SECULAR TALERS 1600-1700.** 1976. Octavo. Gray cloth. 588 pp. Ills. Covers Davenport numbers 6001-7904. Sealed in plastic as issued. MInt. (30.00)

231. Davenport, John S. **GERMAN TALERS 1700-1800.** 1965. Octavo. Red cloth. 416 pp. Ills. Covers Davenport numbers 1901-2951. Spine slightly sunned; the sticker indicated the book was sold in Honolulu, which may explain why. Near VF. (30.00)

232. Davenport, John S. **OVERSIZE MULTIPLE TALERS OF THE BRUNSWICK DUCHIES AND SAXE-LAUBENBURG.** 1956. Quarto. Red cloth. 73 pp. Ills. Vals. #343 of 400 numbered copies. A major rarity covering major rarities. These magnificent examples of medallic art are what numismatics is about. None of these will be slabbed. None of these exist in quantities approaching one percent of the scarcest Morgan. After looking at these romantic, historical, aesthetic examples, how can anyone not tell the emperors of the slabs AND their subjects that none of them have clothes on? Very scarce. Near VF. (75.00)

233. Davenport, John S. and Tyge Sondergaard. **LARGE SIZE SILVER COINS OF THE WORLD.** 1972. Quarto. Red cloth. 186 pp. Ills. Deals with coins over 50mm, although Davenport does admit to being discriminating as to what is included and excluded. Covers 612 multiple crowns. This was intended to supplement the previous lot due to its scarcity. Now scarce in its own right, being offered at \$125.00. VF. (100.00)

234. De Mey, Jean. **EUROPEAN CROWN SIZE COINS AND THEIR MULTIPLES: VOL. I, GERMANY, 1484-1599.** 1975. Folio. Green cloth with DJ. 331 pp. w/supplement, valuation sheet, and photographs to be added. Ills. Intended as a supplement to Davenport. Impressive work. Scarce. (60.00)

235. Edwards, Jonathan. **CATALOGUE OF THE GREEK AND ROMAN COINS IN THE NUMISMATIC COLLECTION OF YALE COLLEGE.** 1880. Octavo. Pc. 236 pp. A cataloguing by weight, metal, size, description, and donor, of 3328 ancients, including 1700 Roman Imperial. Covers chipped, should be bound, as was the general assumption when issued. Contents Fine. (35.00)

236. Felt, Joseph B. **HISTORICAL ACCOUNT OF MASSACHUSETTS CURRENCY.** Burt Franklin 1968 reprint of 1839 original. Octavo. Brown cloth. 259 pp. Covers 1628 to 1839. With the increasing and pleasing increase in collecting of early American coppers (Incidentally, the Early American Coppers club is a vital, exciting organization. I eagerly await its journal, PENNY-WISE) all literature of colonial numismatics is eagerly sought. This quality reprint offers important material for the collector of Massachusetts coppers, in particular, at an affordable price when compared to the original. Near mint. (25.00)

237. Foulke, Roy A. **SINEWS OF AMERICAN COMMERCE.** 1941. Quarto. Blue cloth w/bronze medal in cover. 418 pp. Ills. Published in celebration of Dun and Bradstreet's centennial. The history of credit in America from Jamestown colony to 1941. Important information about the Bank of North America and other important banks, the development of currency in the colonies. Factoid (new word in our hi-tech society): the Plymouth colony was financed by a loan (the "loan arranger's" assistant was named Tonto). Thus our tradition for living beyond our means is inherent in our Puritan forebears (Gentle Ben and his family of three). Important reference. Fine. (30.00)

238. Friedberg, Robert. **PAPER MONEY OF THE UNITED STATES.** 1953 (First edition). Quarto. Green cloth. Friedberg's stated goal was to make a definitive work on United States paper money. The first edition of this standard reference is in great demand, was never published in the quantity of the Redbook, and is notably scarcer. Some rubbing at the corners, with a mark of discoloration on the bottom of the front cover. Both the binding and contents are free of defect. VG or better (or worse). (50.00)

239. Fuld, George and Melvin. **PATRIOTIC CIVIL WAR TOKENS.** 1982, fourth revised edition. Octavo. Red cloth. 359 pp. Ills. Rarity guide. An indispensable reference both for the collector and for any numismatist. Not merely a catalog, it is a veritable

encyclopedia. The enlarged photos, listings, and updated information are available nowhere else. A mint copy. (25.00)

240. Gordon, Thomas F. **THE WAR ON THE BANK OF THE UNITED STATES.** 1967 Burt Franklin reprint of the 1834 original. Octavo. Brown cloth. 155 pp. Gordon's then contemporary work dealt with the battle among Congress, Andrew Jackson, and the Bank. The implications are significant due to the immediacy of the Panic of 1837 and, numismatically, the issuance of Hard Times Tokens. Important. A mint copy. (25.00)
241. Grant, Horace (Providence, RI). **EXTRACTS TAKEN FROM AJN, VOL. II, OCTOBER 1867 AND FROM AMERICAN COLONIAL HISTORY BY WYLLYS BETTS, GIVING THE ONLY HISTORY KNOWN OF THE MEDAL COMMEMORATING THE BATTLE OF RHODE ISLAND.** June 1936. 24mo. Blue CaC. 8 pp. Ills. The title says it all. Title outlined in ink on cover. Scarce. Near Fine. (10.00)
242. Grierson, Philip. **BYZANTINE COINS.** 1982. Large octavo. Green cloth w/dj. 411 pp. 95 fine plates. A comprehensive survey. Grierson's intent was for "a handbook [if your hands can palm a basketball] in one volume [giving] a general history...and descriptive guide [for] the general reader and historian...and the numismatist and collector." Already a classic. Scarce and in demand. A mint copy. (100.00)
243. Guren, Jay and Richard Ugan. **CARNIVAL PANORAMA: NEW ORLEANS MARDI GRAS MEDALS AND CREWES 1884-1965.** 1966. Octavo. Purple and green boards. 204 pp. w/1965 estimate sheet. Many ill. Autographed by Ugan. A fertile area for the collector as many Mardi Gras medals can be purchased at coin shows for pennies, while others in other metals and from earlier years are genuinely elusive. Affixed to the book is a 1966 medal that supposedly is available only with the book. For those of you who think numismatics is beyond the budget of regular folks, this is an opportunity to get the rarely available standard reference and to get into an affordable collectible. Note: you may wonder why we are so verbose about relatively obscure items, since they won't bring a heap-o-cash. We like to talk. Also, a whole lot of people, like us, aren't familiar with these items; we find the numismatic bibliophile to be a particularly garrulous creature, with a primal need, which is not fatal but malignant, to infect others with esoterica. VF. (20.00)
244. Gutttag Brothers. **HARD TIMES TOKENS.** 1959 Federal Brands Reprint of the 1924 original. Quarto. Read clothette (Do you like my new word?). An early example of photocopying, on rectos. Ills. of 183 Hard Times tokens, with descriptions. VF. (15.00)
245. Harris, Robert P. **PILLARS AND PORTRAITS: A CATALOGUE OF SPANISH SILVER COINS, 1732 TO 1826.** 1968, first edition. 12mo. Tan cloth. 96 pp. Ills. Vals. Still useful. In major demand. The best compact, comprehensive guide for collectors of the half real to four reales, although eight reales are included. VF. (20.00)
246. Hibler, Harold E. and Charles V. Kappen. **SO-CALLED DOLLARS.** 1963. Quarto. Yellow cloth w/dj. 156 pp. Ills. and Vals. The standard reference, in major demand, covers 1033 of these items starting with the Erie Canal medal of 1826. The valuations are Star Trek: where no price has gone before. VF. (20.00)
247. Homans, Jr., I. Smith. **THE COIN BOOK.** 1871. Octavo. Green cloth, gilt. 139 pp. 16 engraved plates. Two significant sections: first, 54 page history of coinage in Great Britain by Robert Mushet of the Royal Mint; also 25 page synopsis, "Acts of Congress Regulating the Mint." A forerunner of the Evans' mint histories. Scarce. Front joint weak. Covers rubbed. Binding tight. Contents fine. (25.00)

248. Ingholt, Harald (ed.). **CENTENNIAL PUBLICATION OF THE AMERICAN NUMISMATIC SOCIETY.** 1958. Quarto. Red cloth. 715 pp. 50 plates. A massive book of 49 short, scholarly papers by a Who's Who of numismatica: Bellinger, Breen, Carson, Grierson, Jenkins, Mattingly, Mazard, Newman, Sutherland, and Thompson. It has been a European numismatic tradition to produce volumes like this for special occasions. For you colonial buffs, Breen's article is about Ephraim Brasher, Newman's is about Vermont coppers. Covers lightly rubbed. Contents Fine. (45.00)

249. James, Marquis and Bessie. **BIOGRAPHY OF A BANK. THE STORY OF THE BANK OF AMERICA.** 1954. Octavo. Blue cloth. 566 pp. Ills. An important, readable history of the world's then largest bank. Started by the son of Italian immigrants, it played a significant role following the San Francisco earthquake. Fascinating how it rose from its modest beginnings to be the "establishment" object of terrorists. Scarce. In major demand. But for a 1mm. split at the top of the spine, better than Fine. (30.00)

250. Judd, J. Hewitt. **UNITED STATES PATTERN, EXPERIMENTAL, AND TRIAL PIECES. WITH THE COLLABORATION OF WALTER H. BREEN - RESEARCH AND ABE KOSOFF - VALUATIONS.** 1962, second edition. Octavo. Blue boards. 260 pp. Ills. The stuff that dreams are made of. VF. (20.00)

251. Judd, J. Hewitt. **UNITED STATES PATTERN, EXPERIMENTAL, AND TRIAL PIECES, WITH THE COLLABORATION OF WALTER H. BREEN, RESEARCH, ABE KOSOFF, VALUATION.** 1974, fifth edition. Octavo. Blue boards. 260 pp. Ills. VF. (15.00)

252. Julian, R.M. **MEDALS OF THE UNITED STATES MINT. THE FIRST CENTURY 1792-1892.** 1977. Quarto. Tan cloth. 424 pp. Profusely illustrated. A handsome, scholarly magnum opus. This should be read by all numismatists, not merely exnumists. Mr. Julian, a prolific and prodigious author, is among the best of the contemporary numismatic scholars. His writings on early U.S. coinage and the mint in NUMISMATIC SCRAPBOOK should be reprinted. They are a treasure. VF. (30.00)

253. Krause, Chester L. and Clifford Mishler. **STANDARD CATALOG OF WORLD COINS.** 1972, first edition. Folio. CaC. 792 pp. Ills. and Vals. The first "telephone book." Covers lightly worn. Yellowed contents, Fine. (15.00)

Each of the ten chapters written by a different expert in the field: Head on Greek, Grueber on Roman, Keary on English, Gardner on Oriental, La Couverle on China (hold the Mao). Most instructive and underappreciated. Corners rubbed. Fine. (20.00)

255. Lopez-Chavez y Sanchez, Leopoldo and Jose Yriarte y Oliva. **CATALOGO EL DOBLON DE A DOS ESCUDOS.** 1964. Quarto. Green cloth, gilt. 172 pp. Ills. All text is written in Spanish and English. A scarce standard reference covering the 2 escudos of Spain and Spanish-American mints from the 16th to the 19th century. Copy 295 of 1000 numbered copies. A handsome important work. Fine. (50.00)

256. Lopez-Chavez y Sanchez, Leopoldo and Jose Yriarte y Oliva. **CATALOGO DE LA MEDIA ONZA O DOBLON DE A CUATRO.** 1962. Quarto. Green cloth, gilt. 139 pp. Ills. With the Bedoukian volume on Armenian coins to be offered later, the most valuable of the ANS Monographs. "Why?", you ask. Welllll. It is a standard reference on medieval coinage, a rarity in its own right. But it covers the coinage of Charlemagne, not Queen Carolingian as a "slabber" thought. Fine. (45.00)

260. Newman, Eric P. **THE EARLY PAPER MONEY OF AMERICA.** 1967. Quarto. Maroon boards. 359 pp. Heavily Illustrated. "Historical, statistical, and descriptive [work on] paper money from 1686 to 1789." Over 500 issues dealt with. The definitive work. Except for one edge bump, VF. (20.00)

261. Newman, Eric and Kenneth E. Bressett. **THE FANTASTIC 1804 DOLLAR.** 1962. Octavo. Tan boards. 144 pp. Ills. One of those books that is too often taken for granted. An outstanding, readable reference that tells of the people and the times. "Facts have had to be assembled by new independent research so

that the truths and fallacies could be separated...to reconstruct the exciting background of the coin." Should be read by each numismatist in addition to merely being shelved. A mint copy. (15.00)

Covers ancient Greek and Rome, medievally cursorily, British, Europe, and U.S. "Thanks to the British Numismatic Society for the loan of casts of the new twenty dollar piece of the United States...from a specimen presented...by J. Tall quarto. Printed cloth. 88 pp. 146 plates. Considered the best edition of an important work. The cover is stained as is the bottom quarter of the edge. The book is otherwise Fine. Brown cloth. 1127 pp. In two volumes. 8 plates. French on the even numbered pages, English on the odd (which explains why they drive on the wrong side of the road). Covers from 1654 to 1766. Important documents: many on Canadian Card Money, counterfeiting, Sols Marques, and introduction of copper money. The extensive footnoting gives valuable information. Important for Colonial collectors. Near Mint. (30.00)

276. Steve, George T. (ed.) **1974 PICK'S CURRENCY YEARBOOK BY FRANZ PICK.** 1975, 19th edition. Quarto. Grey cloth. 721 pp. Ills. Complete descriptions of 109 countries' currencies: money in circulation, exchange rates, BLACK MARKET EXCHANGE RATES, domestic purchasing power, and free market value. With Franz Pick's foreword predicting the imminent collapse of the American dollar, the banking system, and hyperinflation. For those of you (maybe someone, somewhere) who care, every speech that Pick ever made that I can find since the late 60's had made the same claim of "24 months to the American apocalypse." I love the gloom-and-doomers who say, "The world will definitely end tomorrow; buy a two-year subscription to my newsletter." Notwithstanding (I always wanted to use that word), the yearbook is a standard, valuable, annual reference.

Also included in this lot is the 1975-76 edition of 761 pages dealing with the same currencies. Pick's Anti-American foreword in this edition borders is positively virulent. I haven't read the latest edition. Probably American monetary policy is responsible for AIDS, rap music, and Geraldo Rivera. Ex-Library of Congress. Each volume about Fine. For the lot - (50.00)

This is one of the major American numismatic references. Unequivocally, it should be in everyone's library. A classic. The first edition is especially in demand. VF. (40.00)

279. Taylor, H.C. and Somer James. **THE GUIDE BOOK OF CANADIAN COINS, PAPER CURRENCY AND TOKENS FROM 1700.** 1961, 3rd edition. 12mo. Glossy CaC. Spiral binding. 264 pp. Ills. and Vals. (Notice how cleverly they have changed titles so as not to be confused with Charlton's book.) During the 1960's when Charltons were being published (and abbreviated) in the U.S. by Whitman, the authors published this thorough, admirable series. The 3rd edition is a major source as it has 100 pp. on the token series, probably the best moderately priced handy reference. VF. (10.00)

283. Williamson, George C. **TRADE TOKENS ISSUED IN THE SEVENTEENTH CENTURY IN ENGLAND, WALES, AND IRELAND.... A NEW AND REVISED EDITION OF WILLIAM BOYNE'S WORK.** 1970 Burt Franklin reprint of 1889-91 original. Octavo. Green cloth. 1590 pp. in two volumes. 23 engraved plates. Williamson's intent was to give information about the striking of the tokens, their use, value, and need. A major reference. The extensive indices are most helpful. This is a fertile and rapidly expanding collecting area. Mint. (45.00)

284. Zambaur, Eduard von. **DIE MUNZPRAGUNGEN DES ISLAMIS, ZEITLICH UND ORTLICH GEORDNET. I.BAND: DER WESTEN UND OSTEN BIS ZUM INDUS MIT SYNOPTISCHEN TABELLEN. HERAUSGEGEBEN VON PETER JAECKEL.** 1968. Quarto. Maroon cloth, gilt. 286 pp. Frontspiece. 26 folding charts. Printed in

German. If you are smart enough to collect Islamic coinage, you will have no trouble using this scarce, valuable resource. Important. Multiple auction records from \$150.00 to \$240.00. Mint copy in shipping box. (100.00)

CONSIGNMENT III

This small consignment of auction catalogues hearkens back what Spencer Tracy said in a flick about Katherine Hepburn, "There ain't much, but what there is, is 'cherce'." The first person to name that movie gets a copy of the prices realized list autographed by Myron and me. The second person gets two copies. (Old line, but then it was an old picture.)

We will begin with the three recent, eventually-classic large cent sales for all you EACers.

285. Superior Galleries. **THE ROBINSON S. BROWN, JR. COLLECTION OF COLLECTION OF LARGE CENTS.** September 30, October 1, 1986. Large format. Brown boards w/ dj. (Yes, this is the hardbound edition.) 306 pp. 1457 lots. Prl. 6 superior (get it?) color plates. Each lot illustrated in black and white, obverse and reverse. For the copper collector or catalogue collector, the most important sale of large cents of our time. I know this is listed out of place, but this sale deserves to be first. "The first time in numismatic history that a complete set of Sheldon numbers has been offered at auction." The Newcombs are complete to 1839; the 1840 to 1857's are virtually complete, with numerous unlisted varieties. The sale is exclusively large cents except for the last lot, one of ten Deluxe Leather Editions of the sale interleaved with 40 photographic plates taken by the cataloguer, Jack Collins (also a numismatic bibliomaniac) and which sold to Armand Champa for \$6000. The sale brought \$1.4 million. With all apologies to Jack's modesty, the cataloguing is magnificent, the best I have ever encountered in any auction catalogue, surpassing the superb New Netherlands' and Bowers'. Rarely have a collection and a cataloguer complemented each other so well. This is a classic. Limited to 200 bound copies. Mint. (\$150.00)

286. Superior Galleries. **THE ROBINSON BROWN, JR. COLLECTION OF LARGE CENTS.** As above, only the softbound edition. Incidentally, Jack Collins, the Yusef Karsh of numismatics, did the magnificent photography for Breen's book on half cents, and has done so for the Breen large cent book which is in preparation. Slight rubbing at backstrip, (your basic Post Office cramming) o/w VF. (50.00)

287. Stack's. **THE FLOYD STARR COLLECTION OF UNITED STATES LARGE CENTS AND HALF CENTS.** (2 sales including Part II). June 13-14, 1984. Octavo. Starr purchased intact the 1945 Newcomb I large cent sale, and obtained Hines' entire late date set from Sheldon. Doug Smith, Jules Reiver, and Dennis Loring assisted in the cataloguing. Also Floyd Starr Collection, Part II. Octavo. CaC. 214 pp. 1988 lots. 7 plates, one of Starr's cents. 440 lots of large cents. These are important, not leftovers. (Also in this sale are important ancient Greek, British hammered gold, and French). The cataloguing and provenance of these cents is magnificent. Its importance cannot be overstated. The best large cent research is being done NOW. Each sale is VF. (40.00)

288. Kagin's Numismatic Auctions, Inc. **THE PHILIP VAN CLEAVE COLLECTION OF LARGE CENTS.** January 30-February 1, 1986. Quarto. Front cover appears rubbed, but it is a printing flaw. Still in exceptional demand. A mint copy. (25.00)

294. Bowers and Ruddy Galleries. **THE FAIRFIELD COLLECTION**. October 6-8, 1977. Large format. CaC. 176 pp. 2724 lots. 14 color plates. Ills. Jack Collins (There he goes again.) large cents from 1793 to 1857: 346 important lots with 49 1794s alone. 58 outstanding pattern dollars: Amazonian, Schoolgirl, 1876 in silver. Fairfield's outstanding 106 Seated Liberty dollars. Important. Covers show rubbing, but are completely sound. Contents VF. (20.00)

295. Bowers and Ruddy Galleries. **DONALD HERDMAN COLLECTION**. December 8-9, 1977. Large format. CaC. (I'm glad Myron and I both proofread so we don't make mistakes.)

What's more, for you error collectors out there this one has either the contents or the covers bound upside down. The most in-demand and probably the best and most important postwar (no, not the Revolutionary) A.N.A. sale. It would take a separate catalog to annotate this appropriately (Don't worry, Myron. This time I promise to be brief). Highlights: Homer K. Downing large cents: 390 "Sheldons" with important text (24 pp.), 17-1793s, 73-1794s, unique lettered edge Jefferson cent; 85 "Newcombs" with extensive text; 106 lots of important numismatic literature (which comes early in the sale, not buried in back as usual with the Churchill crown variety collection); Rumbel's "finest and largest ever" Leshner dollars; Rumbel's and Lathrop's important bust dollars; important ancient Greek, colonials, patterns, multiple talers, gold, assay medals, Canadian tokens. (Isn't it quaint how naive those collectors were back then without having the 11 grades of unc. to assist them? Why, numismatics was positively primitive in those days.) This catalogue is a must. Covers discolored, rubbed at backstrip. Contents Fine. (25.00)

314. New Netherlands. FIFTY FIRST CATALOGUE OF PRIMARILY RARE U.S. COINS. June 19-20, 1958. 12mo. David Bowers has said that if he could only have one firm's auction catalogues if he were stranded on a desert island, he would

select a complete run of New Netherlands catalogues. If I were stranded with Cybil Shepherd, I'd be willing to settle for a set of (shudder) the Money Tree's. Anyway, Bowers is right, as if my opinion is worth guano. The New Netherlands catalogues from #29 to #66 are magnificent references. Slight peripheral cover fading. Dealer name stamped on cover. Overall Fine. (20.00)

Quoting from Paul Nadln-Davls, outstanding coin dealer from Ottawa, "Undoubtedly the most impressive catalogs of Canadian coins ever produced in the U.S., New Netherlands sales stand as monuments of research and detail on the deciseries. The perfect research source...." (We can never find out what people think of our catalogs through their choked coughs and screams.) Highlights: 1921 gem unc. 5 cents, 1889 dime near unc. (\$2100 in 1964!), 1921 half choice unc. @ 12,500. 1893 round top "finest known" dime @ \$5200. Maritime rarities and patterns abound. Probably the finest catalogue of Canadian coinage. Fine. CONSIGNMENT IV

Among the areas of numismatic literature with which many American collectors are unfamiliar is the European auction catalogue. The European tradition of numismatics predates the relatively young American hobby by centuries. Consequently, the European tastes tend to have a more mature view of numismatics. Remember, Spink of England goes back to 1666. While we in the colonies were burning witches at the stake, the English were already forming numismatic collections.

Stack's has been conducting auctions continually since 1935 while Christie's in England has been conducting them continually since 1770, Sotheby's since 1817. That is just in England. The house of Schulman in the Netherlands goes back to the nineteenth century. The resulting maturity of the European numismatic scene demands excellence in its offerings and in its catalogues. Admittedly, there is European schlock, but the best of the European catalogues offer much to the American collector. Because of the high quality of the plates and the excellence of the cataloguing, any language barrier is truly insignificant. Additionally, many of the catalogues have extensive annotations in English. What follows is an offering of what we think to be the best of the contemporary breed.

To save in cataloguing time, all of the following are large format, in most cases with glossy card covers and contents. All are top quality.

325. Hess, Adolph AG (Luzern) and AG Leu & Co. (Zurich). **GOLDMUNZEN AND GOLDMEDAILLEN**. Sale #8. October 29, 1957. 21 pp. 480 lots. w/est. 8 fine plates. Much quality medieval gold. Five 10 dukats. An important early Hess-Leu sale. Fine. (35.00)

331. Hess-Leu. (8 sales, no duplication). Sales 32, 35, 40, 43, 44, 47, 48, 50. This konvolut (I took the word from Frank Katen; he said he was done with it) covers the full range of European numismatics. Some of the sales are duplicates of the above lots. A nice grouping. With the exception of four with backstrip chipping, all are fine. (75.00)

Herr Stuker was the head of the bank's numismatic department. Most major German and Swiss banks have numismatic divisions; instead, our banks issue charge cards at a mere 15% over prime. Minor mailbox chipping at top of spine, otherwise Fine. (25.00)

333. Bank Leu AG. **GRIECHISCHES BRONZEMUNZEN UNTERITALIENS UND SIZILIENS**. Auction 6. May 8, 1973. 31 pp. 300 lots w/est. 1 color plate of bronzes. 15 b&w plates. The collection of Tom Verzi from New York. Question, why would he consign his sale overseas? Answer, because that is where he felt he would get the best results. Why? To take advantage of excellent cataloguing and a sophisticated group of collectors. Ergo, this magnificent, well-referenced catalogue of Roman bronzes is of great importance. Fine. (35.00)

334. Bank Leu AG. **ANTIKE MUNZEN**. Auction 7. May 9, 1973. 57 pp. 479 lots w/est. 30 plates. NOTE: The following grouping of catalogues are from Munzen und Medaillen/Monnaies et Medailles of Basel, Switzerland. Although the company has German and French names, they are the same firm. The only significant note has to do with whether the catalogue is primarily written in German or French. So, when the German name appears, the catalogue is in German; when in French, French. (eh?)

350. Munzen und Medaillen A.G. (Basel). **AUKTION VII.** December 3-4, 1948. 50 pp. 721 lots w/est. 30 plates. Much rare early hammered and milled gold. Also important ancients. These early postwar sales are quite scarce. Covers soiled. Paper show fading. Contents are essentially Fine. (20.00)

357. Monnaies et Medailles. AUCTION XXI. March 19, 1960. np. 100 lots w/est. Each illustrated obverse and reverse. An obviously important sale of 100 Roman gold coins from Caesar (44 BC) to Julianus Philosophus (360-63 AD). I just told Myron that each of the gold coins in the sale was plated; he thought it a dumb thing for the collector to do. (As Winston Churchill said of the Americans and the English, "We are two peoples separated by a common language.") Other than peripheral discoloration, Fine. (25.00)

358. Munzen und Medaillen A.G. AUCTION XXIV. November 16, 1962. np. 389 lots with Prl. 32 plates. Each coin illustrated obverse and reverse. Three major important sections: first, 178 lots of Papal coinage from Leon IV (847-855) to Clement XII (1730-40) with good pedigreeing and text. Next, 60 bracteats with good text. Finally, over 100 lots of 16th century German coinage. Fascinating: American numismatics at that time was going roll crazy. The Europeans had to be looking at us then with the same bemusement as they do now with the grading nonsense. Remember, over here we don't think it's worth anything unless we have the finest roll out of an original bag. Take a look at these medievales. You tell me what is rare and what is promotion. (I went on a tirade here about 1881-S Morgans at \$3000 and the tulip craze, but I decided to edit it out.) Scarce, important, and Fine. (25.00)

359. Monnaies et Medailles. AUCTION XXV. November 17, 1962. 41 pp. 745 lots w/Prl. 20 plates. A relatively short, but exceptional catalogue of ancients. The creme de la creme is a 59 mm. gold medallion struck to honor Alexander at the Olympic festival at the Macedonian capital, Beroia. Translating (My high school French teacher, Mrs. Persky would be so proud, but then again....): "a master work of Greco-Roman monetary art of the third century B.C. A capital piece in splendid condition." This piece, accompanied by a full page of text and separate obverse and reverse plates, brought 94,000 Swiss Francs (\$40,000 U.S.) in 1962! I promise not to make any snide comments about today's promoters and present day prices or about this piece not being graded by the Sheldon scale, so how can we know what it should be bid at? Important and Fine. (25.00)

360. Monnaies et Medailles. AUCTION XXVII. November 15-16, 1963. np. 984 lots w/Prl. 67 plates illustrating each coin obverse and reverse. All Italian states coinage. A major reference collection. I am not aware (of many things) of many such sales. During my time as a dealer of foreign coinage (shudder), one major void in my library was comprehensive Italian states references. This was what I was looking for. (Actually, I was looking for Miss Goodbar.) Important. Fine. (50.00)

361. Monnaies et Medailles. AUCTION XXVIII. June 19-20, 1964. 78 pp. 738 lots w/est. 40 plates. Another important sale of ancients. High quality Greek, exceptional Roman with superb bronzes, good Byzantine, and engraved gems. Also a nice library of references on ancients. The cataloguing is superior. Fine. (20.00)

362. Monnaies et Medailles. AUCTION 32. October 20, 1966. 52 pp. 529 lots w/est. 32 plates. Two important collections in this sale: first, ancient Greek, superior silver with exceptional Syracusan (my favorite, if anyone is interested in endowing The Money Tree Museum). Also, "A Valuable Collection of Jewish Coins and Coins from Palestine", this important consignment of the last 340 lots are nearly all plated and (hold your breath) are catalogued in ENGLISH (yesiree, Bob!). Rarities abound. Fine. (30.00)

363. Monnaies et Medailles. AUCTION 35. June 16-17, 1967. 66 pp. 645 lots w/est. 44 plates. An exceptional grouping of Byzantine coinage, also good bracteats, and a major section of Austrian coinage from 14th to 18th centuries. Minor rubbing at backstrip o/w Fine. (20.00)

364. Munzen und Medaillen. AUCTION 41. June 18-19, 1970. 83 pp. 619 lots w/Prl. 40 plates. Another exceptional sale of ancients, specifically Greek and Roman bronzes. Highlight: a mint state Demetrius I stater, only second known, brought 80,000 sfr. VG. (20.00)

365. Munzen und Medaillen. AUCTION 42. June 19-20, 1970. 60 pp. 741 lots w/est. 52 plates. All German states from 14th to 18th century, some siege money, and Swiss cantonal and modern Swiss. Fine. (15.00)

366. Monnaies et Medaillen. AUCTION 43. November 12-13, 1970. 78 750 lots w/est. 39 plates w/ one color. An important sale of ancients. Extremely well-catalogued. Exceptional quality Punic (Sicily) coinage, with a few superb Aes Grave, excellent Roman and Byzantine. A plethora of rarities. Fine. (35.00)

367. Munzen und Medaillen. AUCTION 48. June 19-21, 1973. 89 pp. 1093 lots w/est. 88 plates. An outstanding sale beginning with HRE, followed by 500 lots of pre-1800 German with multiple talers, a specialized section of Strassburg coins and medals, and Swiss cantons. A valuable, important auction. Fine. (30.00)

368. Munzen und Medaillen/Monnaies et Medailles. Another Konvolut of 8 sales. Auctions: XVII, XXI, XXIII, XXVIII, XXIX, 35 (Don't blame me; they changed from Roman to Arabic, from Natchez to St. Paul.), 44, and 48. The sales date from 1957 to 1973 and cover the full numismatic range: ancients, medieval, modern German and Swiss. Some are duplicates of above. The conditions average Fine with no major defects other two with rubbed spines (literary "scoliosis"?). (100.00)

NOTE: H.H.Kricheldorf of Stuttgart, Germany has been issuing quality catalogues since 1957. In addition to which, the firm is known for the high quality of its plates. Also most of his catalogues are titled, Munzen und Medaillen, so I will only list the sale number (giving me more room to editorialize). Each catalog is octavo with card covers.

NOTE: The following group consists of Spink Coin Auctions. All are large format, glossy catalogues. Those without plates are profusely illustrated. Spink catalogues offer extensive pedigree information, with full descriptions, and conservative pre-WWII grading standards. Recognizing that the centuries old European numismatic tradition views geometrical increases in price for minuscule, picayune increases in degrees of unc. as laughable, and recognizing that Spink has been in business continuously since 1666 and that no fad is going to affect their grading, these catalogues do have true reference value.

376. Spink. NO. 3. February 21, 1973. 73 pp. 575 lots. The Lord Hamilton Collection of Milled Silver. The collection's strength is up to George II. Highlights: Unique 1696 2nd bust shilling, photo on cover, brought 13,000 pounds, 1707E mint state halfcrown, septimo edge, brought 5000 pounds, one of 5 known 1799 U.S. dollars w/Geo. III oval counterstamp @ 5600 pounds. A landmark collection. (By European standards, the catalogue grades fair; by The Money Tree Certifiable Grading Service it grades better-than-perfect, finer-than-imaginable). Fine. (20.00)

377. Spink. NO. 4. February 22, 1973. 65 pp. 575 lots. The Pastor J.F. Rowlands collection of English silver crowns, 140 lots. Also 73 lots of English hammered gold featuring a Triple Unite @ 7200 pounds. Fine. (15.00)1

378. Spink. NO. 6. October 10-11, 1979. 134 pp. 962 lots. 1 color plate. An important reference offering of 264 lots of hammered pennies from Cuthred (798) to Henry III (1272). Features Queen Cynethryth penny, and an unique Brian Fitzcount penny. Important Edward VI and Elizabeth I coinage. Also important crowns and half crowns. The sale brought 434,000 pounds (at a \$2.40 pound) or \$1.1 million. Hmmm, and not a Morgan Dollar or Commem. in sight. Fine. (25.00)

379. Spink. NO. 9. June 4, 1980. 68 pp. 432 lots. 2 color plates. The H.E. Manville collection of milled silver, 362 lots between 1656 and 1800. Highlights: a genuine 1658 Cromwell sixpence with a page and a half of text; also, 1765 maundy set: the 2, 3, and 4 pence. There are probably no more than 20 of each known. The only penny is in the British Museum Collection and may be a counterfeit. VF. (20.00)

380. Spink. NO. 29. June 2, 1983, 35 pp. 138 lots w/ Prl. 2 color plates. "The Distinguished Collection of English Hammered Gold Coins, Henry VI to Charles II, formed by R. Duncan Beresford-Jones, Esq." If Spink says it is "distinguished", it must be of outrageous importance. The sale brought 586,000 pounds (\$1.4 million) or 4200 per lot (over 10 grand). Each coin is illustrated obverse and reverse. The provenance is provided for each coin. An exceptional catalogue of an exceptional sale. Hmmm, not a single coin graded by a grading service. What may we make of that? Better than Fine. (25.00)

381. Spink. NO. 31. October 12, 1983. 93 pp. 862 lots. 13 plates. 2 color plates. A magnificent sale which brought 662,000 pounds. Strong on all areas. Specialized emphasis on Normans, medlevs, and Elizabeth I. Also, 27 Cromwell coins, and many works by Thomas Simon. Guess what, I'm not going to belabor the obvious, beat a dead horse, or make any condescending comments about you-know-what. Important sale. Fine. (20.00)

382. Spink. NO. 37. June 15, 1984. 51 pp. 468 lots. 12 plates. "The Collection of British Campaign, Life Saving and Historical Medals formed by Captain John Stansfeld, The Royal Scots Greys, and his cousin..." Also including orders, decorations, and campaign medals from other consignors. Also includes 42 groups of medals awarded individuals. Extensive text. Important collection. Fine. (20.00)

383. Spink. NO. 39. December 6, 1984. (np). 173 lots. Prl. One color plate. Each coin illustrated obverse and reverse. The Reverend Arnold Mallinson collection of Classical, English, Scottish, and European coins brought 329,000 pounds or 1900 pounds per lot. Highlights: Taras Gold stater @ L27,000, Naxos tetradrachm @ L31,000, Kimon dekadrachm, Henry VII sovereign @ L20,000. Paraphrasing from the preface: an Anglican priest with catholic (small c) tastes. Fine. (20.00)

CONSIGNMENT V

Highlights of this section of auction catalogues are collections of named sales. Some of these are especially elusive. Most are in demand. All of these are of interest (to us, anyway).

THE HOWARD D. GIBBS SALES:

We believe this is the first time all 14 U.S. sales featuring Gibbs' consignments, by name, have been offered at one time. Additionally, we are offering four (of what we believe to be five) European sales of Gibbs' coins. Gibbs' collections were in several areas: talers of the world, emphasizing Germanic; copper coins of the world, a larger collection than Neumann and Eklund; siege, counterstamped, and necessity coinage; and primitive monies of the world.

His consignments were in sales spanning 13 years. We believe that, except for Virgil Brand (and we will be glad to accept any additions or corrections to be included with the Prices Realized), Gibbs' name appears as the consignor in more sales than anyone else.

Gibbs' U.S. sales were all handled by Hans Schulman. His specialized European coins, the sales of which we are offering four of five, were handled by firms in the country of the collecting area.

384. THE SIX GIBBS SALES OF HANS SCHULMAN, AND SCHULMAN COIN AND MINT (WITH QUALITY SALES CORP). All six sales are one lot.

Part I. October 6-8, 1970. 126 pp. 1547 lots w/Prl. 44 plates. VF. Includes Gibbs' jade money, excellent Oriental, and 20 lots of plate money.

Part II. December 14-15, 1970. 81 pp. 1902 lots w/Prl. 23 plates. Near Mint. Consists of coins exclusively, extensive ancients.

Part III. January 26-27, 1971. 111 pp. 1283 lots w/Prl. 37 plates. Near Mint. Highlights: 90 piece lot of Japanese feudal notes estimated @ \$250 brought \$8100; also huge Alaska copper plate.

Part IV. April 6-7, 1971. 71 pp. 2126 lots w/Prl. 20 plates. VF. Gold coins and gold objects used for money.

Part V. June 18-20, 1971. 175 pp. 2458 lots w/Prl. 68 plate supplement. VF. Important as the first part of the sale is Kann's collection of Chinese. The second part is Gibbs'.

Part VI. March 20-21, 1972. 84 pp. 797 lots. 23 plates. VF. 200 lots of Gibbs' jade and 120 lots of his odd and curious money.

Estimate for the the lot of six sales: (95.00)

NOTE: The next eight Schulman catalogues are the balance of the Gibbs' American sales.

385. Schulman, Hans M.F. J.P. MORGAN, GIBBS, JOHNSON, SCHULMAN, AND WOODWARD. April 26-28, 1951. Large octavo. Glossy Pc. 112 pp. 3049 lots w/Prl. 22 plates. The first 895 lots are Gibbs' Spanish and Spanish-American coins, catalogued by him. 490 crowns featuring an 1828 Santiago Coquimbo proof peso. (Myron, a crown maven, names this as the most elusive.) Morgan's and Brand's ancients. Uniface silver trial of reverse of Assay Office \$20 on square flan. A very elusive sale. Covers soiled. Contents Fine. (25.00)

386. Schulman. April 24-26, 1952. Large octavo. Glossy Pc. 64 pp. 1495 lots. 29 plates. Wayte Raymond's consignment of Morgan's Italian gold from Ovazza. Gibbs' crowns and a small group of odd-and-curious. Woodward's Chinese (not to be confused with Grauman's). Elusive. Fine. (20.00)

386A. Schulman, Grunthal, New Netherlands, Numismatic Fine Arts. 1952 A.N.A. SALE. August 16, 18, 19, 1952. Large octavo. CaC. 4880 lots. 48 plates. "Canadian Coins, Medals and Tokens Mainly from the Collection of H.D. Gibbs." Probably the listing of 80 lots of tokens and medals. This A.N.A. sale is so overpowering that Gibbs' name never appears. The Downing sale of 390 "Sheldon" cents, Rumbel's 172 bust dollars, outstanding numismatic literature, 26 multiple talers, Rumbel's important Leshar dollars and Massachusetts colonial silver. (You may notice the odd numbering of this lot. No, it wasn't carelessness this time; rather, we learned about this Gibbs consignment right before this was to be printed. Ah, those delusions of adequacy). Near VF. (25.00)

387. Schulman. April 25, 1953. 12mo. CaC. 90 pp. 1958 lots. 10 plates. Small consignment of Gibbs' Germanic. Andre's rarities from Count Ferrari. U.S. 1869 half eagle in platinum. 540 lots of numismatic literature. Odd-&-curious, though not labelled from Gibbs. A very scarce sale. Fine. (25.00)

388. Schulman. October 29-31, 1953. Octavo. CaC. 152 pp. 3166 lots. 31 plates. The sale catalogued by Schulman and Gibbs. The Gibbs consignment is unlabeled, probably the 200 crowns. 389. Schulman. HOWARD D. GIBBS COLLECTIONS OF COUNTERSTAMPED AND SIEGE COINS OF THE BRITISH ISLES. November 19, 1960. Quarto. CaC. 44pp. 593 lots w/Prl. 14 plates. Of note: one of two known 1798 U.S. dollar w/oval Geo. III counterstamp; 1795 unc U.S. half w/oval Geo. III counterstamp; 96 Scottish counterstamps. Sale catalogued by Gibbs. Fine. (20.00)

Though his coins are not specifically labelled, the Gibbs' coins are Dutch, German, and French siege and obsidional coinage. Some odd-and-curious may be his, also. (I have an odd-and-curious money collection; if I have any money, it is both quite odd and definitely curious.) Each volume Fine. (20.00)

391. Schulman. THE HOWARD GIBBS COLLECTION OF COUNTERSTAMPED, NECESSITY, AND SIEGE COINS OF THE AMERICAS AS CATALOGUED BY HOWARD D. GIBBS. March 18-19, 1966. Octavo. NOTE: The next three lots comprise 4 of what we believe to be five foreign Gibb's sales, missing only the Spanish sale.

392. Hess-Leu (Switzerland). (Two taler sales) SAMMLUNG HOWARD D. GIBBS. Sale I. June 12, 1956. Quarto. Glossy, CaC. 40 pp. 1009 lots w/Prl. 16 plates. HRE and Germanic talers with 15 multiple talers. And Sale II. March 19, 1957. Quarto. Glossy CaC. 38 pp. 975 lots w/Prl. 10 plates. All Germanic talers. Two important sales. Slight peripheral cover discoloration o/w Fine to VF. (40.00)

393. Hirsch, Gerhard (Munich). KATALOG XXIX. December 12-14, 1961. Octavo. CaC. 87 pp. 2100 lots. Prl. The first 400 lots are Gibbs' Saxony talers, including the old Ernestine and Albertine lines. 394. Schulman, Jacques (Amsterdam). LA CELEBRE COLLECTION DE FEU MR. J. VAN KUYK DE MONNAIES ET MEDAILLES FRANCAISES [ET] HOWARD D. GIBBS DUTCH SIEGE COINS AND COUNTERSTAMPED PIECES. CATALOGUE 235. June 5-9, 1961. Quarto. CaC. 137 pp. 2933 lots. 45 plates. An important French collection. There are about 400 possible lots of Gibbs' coins, but they are not directly attributed to him. VG. (20.00)

395. THE PREVIOUS ELEVEN LOTS TOGETHER. IF ONE BID FOR ALL TEN OF THE PREVIOUS LOTS EXCEEDS THE INDIVIDUAL BIDS, THEY WILL BE AWARDED TO THE SUCCESSFUL BIDDER OF THIS LOT.

NOTE: Also offered here are other complete sets of famous "name" sales.

396. The Thomas Ollive Mabbott Collections complete in Five (or maybe six) Hans Schulman sales. Each is octavo with card covers:

Part I. COINS OF THE GREEK WORLD. June 6-11, 1969. 148 pp. 3860 lots. 84 page plate supplement. Famous sale. "Contains unusual number or varieties not found in the British Museum catalogues." Actually 3200 lots of Romans with emphasis on bronzes. One 1600 piece lot, "World's most important collection of Ancient Lead Tesseræ." VF.

PART III. MABBOTT III, ROSENBACH II. March 23-25, 1970. 104 pp. 1713 lots w/Prl. 29 plates. Coins and medals of the U.S. and the rest of the world. Nothing identifies Mabbott's coins. VF.

Part IV. MABBOTT IV, ROSENBACH III. May 26, 1970. 101 pp. 1397 lots w/Prl. 35 plates. Ancients, medals, coins of Asia and Europe. Nice group of Hammered Irish pennies. VF.

Part V. BOJOLA, QUIGGIN, MABBOTT V, ROSENBACH IV. July 19, 1970. 101 pp. 1397 lots w/Prl. 35 plates. Odd and curious. Coins and medals of Africa, Americas, Asia, and more ancients. Fine to VF.

[Part VI ?]. UNIVERSAL SALE. November 9, 1970. 155 pp. 2722 lots w/Prl. The back of one of the earlier Mabbott sales stated that Mabbott's German coins would be offered in a fall, 1970 sale. The two other Schulman fall sales don't seem appropriate. This sale has extensive Germanic, but no consignor or name appears. So, it is possible that this is Mabbott VI. We would rather err on the side of completeness. VF.

CONSIGNMENT VI

This section offers some complete and reasonably complete (and some unreasonably incomplete) groupings of numismatic literature. Read on; it will be worthwhile.

432. American Numismatic Society. **ANNUAL REPORT OF THE AMERICAN NUMISMATIC SOCIETY.** (12 issues). Octavo. CaC. 1962-1966, and 1973-1979. In addition to the usual business stuff, the report lists accessions to the coin cabinet of the ANS with about four plates per early issues, and with extensive illustrations for the later ones. The areas involved are ancient Greek and Roman, Byzantine, medieval, modern world, Oriental, Latin America, U.S., and medals, tokens, and decorations. The Annual Report was formerly buried in the Annual Proceedings. . The "first fruits of a new concept" started with the 1973 report. The 1977 issue details with plates the theft of stolen ANS early, choice American issues with a later insert announcing their recovery. The 1978 issue details the ANS's acquisition, with illustration, of the Rosenthal 1804 dollar. There is real information, not dry data, in these reports. Each issue averages Fine. (60.00)

433. American Numismatic Society. **MUSEUM NOTES.** Fifteen consecutive issues from 1962 (Volume X) to 1979 (Volume 24). Octavo. Blue CaC. Each issue averages 220 pp., and 30 fine plates. Since 1945 the ANS has issued annually, (except for the early ones) a volume of scholarly papers by the ANS museum staff and other internationally prominent numismatists using the ANS collection as the its basis. The monographs deal primarily with ancients, medievals, and Oriental, but there are significant papers on American coinage. Of note: Volume XXI contains a 40 page index to the first twenty volumes. Other than 3 sunned spines, the condition is VF. (225.00)

434. Charlton, J.E. **STANDARD CATALOGUE OF CANADIAN COINS, TOKENS, AND PAPER MONEY.** The entire series of 11 Whitman editions from 1960 (8th edition) to 1970 (18th edition). 12mo. Light blue cloth. Each issue averages 120 pages with illustrations and values. The previous seven card covered editions were printed in Canada, with Canadian publication resuming in 1971. No book worse than Fine with three mint copies. Avg. VF. (85.00)

435. Coin Galleries (Stack's' subsidiary). Sales 2 through 7. (The first sale is offered earlier in our listing of "Number One"'s). The early sales are particularly important; Vladimir Clain-Stefanelli was the manager, and Elvira C-S was the cataloguer. Both, individually distinguished numismatic authors and scholars, were later curators at the Smithsonian. Sale 2: Empire State Numismatic Association, October 23, 1954. Sale 3: Charles Ross Collection. October 30, 1954. Sale 4: Bernard Komm Collection, July 11, 1955. Sale 5: Empire State Numismatic Association, October 15, 1955. Sale 6: Claude R. Collier Collection of Crowns of the World, a large format sale with the 32 plates (some issued unplated) of 1289 crowns, scarce and very important. Sale 7: Mail Bid Sale, August 17, 1956. These sales offer excellent ancients and medieval, superior crowns with many multiple talers, Renaissance medals, and important British. The six sales average Fine. (30.00)

436. Friedberg, Robert. **PAPER MONEY OF THE UNITED STATES.** Editions 3 to 7. 3rd edition, 1959. 4th edition, 1962. 5th edition, 1964. 6th edition, 1968. 7th edition, 1972. These are all Fine to VF copies. For the five. (65.00)

437. Krause, Chester and Clifford Mishler. STANDARD CATALOG OF WORLD COINS. Seven editions. 1972, first edition, Fine. 1977, fourth edition, VG. 1979, fifth edition, Fine. 1980, sixth edition, 20 pages coming loose, otherwise sound. 1982, eighth edition, VG. 1983, ninth edition, Fine. 1984, tenth edition, Fine. For the seven. (81.00)

438. Joseph Lepczyk (East Lansing MI). AUCTION SALES 5 TO 50 COMPLETE. (47 issues, 46 mint!!!). From Sale 5, May 23, 1973 to Sale 50, November 26, 1982. Although there are 46 sales by number, The Sobin Sale of French Ecus, Sale 20, exists in both the regular edition and a post sale edition bound in blue boards; both are included. The only non-mint sale is Sale 6, October 10, 1973 which has no front cover (ripped right off) but is otherwise VF. Also 43 of the copies have mint, original Prices Realized; sales 11 and 13 have photocopied Prls. and the Prl for Sale 24 is original, but VG. We know these are mint as we selected the creme-de-la-creme from the Lepczyk inventory which we own. Downie-Lepczyk does not.

The first four sales were mail bid sales in Coin World according to Lepczyk and to Gengerke. We do know that a separate catalogue for Sale 4 exists, meaning that this run starts with Lepczyk's second catalogue. Additionally, through Sale 18 the catalogues are small format and are quite scarce. Those sales prior to 1975 are particularly scarce. Also, the early Prls. are scarce. We haven't even discussed the numismatic importance of these catalogues. The Lepczyk sales are storehouses of outstanding, rare, important, and unusual coinage, primarily foreign. They are valuable resource material.

For those who want near perfection, we haven't gone the route of the coin guys and sealed these in hard plastic. Rather they are enclosed in hand-selected, MS-70 "Glad Bags" and have been safely stored in a VF-20 shipping box, with edge ding. For the 47 copies. (250.00)

439. Munzen und Medaillen A.G./Monnaies et Medailles S.A. (Basel, Switzerland). 212 consecutive Fixed Price Lists from May 1963 (List 232) to April 1982 (List 443). (And don't think it wasn't a pain counting and collating these, and sorting out the duplicates.) Each 12mo. Glossy pc. Each issue averages 28 pages of about 450 lots (That's got to be about 100,000 lots, total), and 3 plates. These lists offer primarily ancients, medievals, and German and Swiss. An extensive record of European numismatics over 20 years. Included are six miscellaneous lists from 1948 to 1961. Problem-free. (I was going to list the condition for each of the 212 lists, but I've got an appointment next April that I might not be able to keep.) Conditions average Fine to VF. (175.00)

440. Jess Peters. 57 (the Heinz hoard?) of 61 possible sales from November 3, 1965 to October 24, 1972. (The missing sales are 15, 16, 27, and 36) All small format sales. CaC. About 30 with Prls. These small format sales average 35 pages of 850 lots. Excellent foreign especially crowns and Oriental. (A major consignor in the 60's was some guy named Myron Xones or something). Submit your guess of which sales had a significant sale of Myron's crowns. The winner won't get anything, but recognition [and probably abuse] in the next Out on a Limb

If one accepts Peters' catalogue numbering starting with the May 23, 1972 sale as number 57, then the first sale in this listing is catalogue number Zero, and the 13 previous sales must have had negative numbers. (We have seen many sales that were real Zeroes). Some sales (Soupy's brother) have soiled covers and prices written in. Most of these are from the Lepczyk library. The average condition is better than Fine. (200.00)

441. Spadone, Frank C. MAJOR VARIETY AND ODDITY GUIDE OF UNITED STATES COINS. (The first seven editions in eight issues). 1st edition, 1962: 12mo. CaC. Glossy. 52 pp. Ills. and Vals. Mint. 2nd edition, 1963: 98 pp. 3rd edition, 1965: Green Cloth. 114 pp. New Third Edition, 1965: CaC, as are all the rest. 4th edition, 1967: 128pp. 5th edition, 1971. 6th edition, 1974. 7th edition, 1977. The latest edition lists 3900 entries: estimates of quantities known, extensively illustrated. The cloth, 3rd edition is particularly in demand due to its ruggedness. Except for the 4th edition, which is VF, all the others are Mint. For the eight. (35.00)

442. Whitman Publishing Co. 13 different titles in the black, flexible leatherette book series. Each is 16mo. with glossy contents. The titles: Altz, Foreign Coins Struck at U.S. Mints; Davenport, Silver Dollars of Africa; Dodson, Money Tells the Story; the Fuld, Guide to Civil War Storecard Tokens and Patriotic Civil War Tokens; Gould and Bressett, Alaska Through the Years and Hawaiian Coins, Tokens, and Paper Money; Gould and Higgle, Money of Puerto Rico; Higgle, Colonial Coinage of the U.S. Virgin Islands; Rothert, A Guide Book of U.S. Fractional Currency; Shafer, U.S. Territorial Coinage for the Philippine Islands; Slabaugh, Confederate States Paper Money; Yeoman, Moneys of the Bible.

This series, produced starting in the late 1950's, has still important references, such as the two Fuld books on Civil War tokens, and Rothert's fractional currency work, which we find to be the scarcest by far of the series. (I think this may be the complete series, but I cannot guarantee it. If anyone knows of any other titles in this series, please contact us so we may relay the information with the Prices Realized.) The conditions average VF. (75.00)

443. Yeoman, R.S. A GUIDEBOOK OF UNITED STATES COINS, (THE REDBOOK 1961. 1960, 14th edition. 6 mint copies still sealed in the Whitman nearly-plain brown wrapper. According to Ed's (Ed Lesniak of Redbook fame), the 14th edition is the scarcest of the 60's in mint condition. For the package containing 6 mint copies. (75.00)

444. Yeoman, R.S. A CATALOG OF MODERN WORLD COINS. (The Brown Book). The first 11 editions. 12mo. Brown cloth. First edition, 1957. 508 pp. Ill.s and Vals. The other editions have the same description. The first edition is VF; the other ten have no copies worse than Fine; overall averaging VF. (75.00)

445. Yeoman, R.S. CURRENT COINS OF THE WORLD. (The White Book). The first 5 editions. First edition, 1966. 12mo. White pictorial cloth. 250 pp. Ills. and Vals. The fifth edition has a 1972 copyright. The first edition, which is relatively scarce, is Mint, with the other four editions VF to near Mint. (30.00)

the scarce, early, small format Lepczyk sales

464. Joseph Lepczyk. **MAIL BID SALE #5 OF WORLD COINS AND MEDALS.** May 23, 1973. Small format. CaC. 11 pp. 628 lots. 3 plates. Lepczyk's second catalogue. His first four sales were published in Coin World with the fourth sale also being offered in a separate catalogue. All pre-1976 sales are scarce. This sale is quite elusive, especially in near Mint condition. (12.00)

CONSIGNMENT VII

This consignment consists of long runs of numismatic periodicals and journals, a number of which are rarely offered. Because of the large number of issues in each run, I will try to keep from running off at the computer (fat chance!).

467. **ANNUAL REPORT OF THE ROYAL MINT.** British Royal Mint. 19 issues. 1948, reports #70-75 (covers from 1939-44, England seemed to be otherwise occupied for a few years, then.); 1951, #80 (covers 1949); 1954, #83; 16 consecutive reports from #87, 1956 to #102, 1971-72. Not only statistical data, but they have numismatic significance for coinages of emerging nations, documentation and reports dealing with decimalization, text and plates of mint medals; and reports of the Comptroller of the mint which discuss history of minting, collecting, coinage of 1816. Quoth he, "I like to stuff my reports with a little historical herbage." (I prefer wild rice.). More useful than the recent reports here in the colonies. Economically, historically, and numismatically important. Such a long run is especially useful. The condition averages Fine. (150.00)

468. **CALCOIN NEWS.** Quarterly magazine of the California State Numismatic Association. 37 issues from Summer 1965 to Winter 1984. 12mo. Pc. One of the best regional journals. Average 40 pp. per issue. Good numismatic articles in each journal, not so nearly arcane as The Numismatist. Complete years: 1966, volume 20; 1967; 1978; 1981; 1982; 1983. Average Fine. (45.00)

469. **THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL.** Journal of the Numismatic and Antiquarian Society of Montreal. 52 total issues. The last 16 volumes complete in 41 issues: Series III, Volumes II-XIII, 1899-1916; Series IV, Volumes I-IV, 1930-1933. The earlier 11 individual issues: Series I: Vol 2, #2; Vol 3, #1; Vol 4, #4 & 5; Vol V, #2; Vol. 11, #4; Series II: Vol 1, #1; Vol 2, #2 & 4; Vol 3, #3 & 4 (1 issue); Series III: Vol 1, #3.

Quoting from Paul Nadin-Davis, "One of the most, if not the most, influential numismatic publications of its time, the CANJ was the vehicle chosen for first publication of many important Canadian works." Quoting from The Money Tree, "The largest and most complete offering since the previous largest and most complete offering." This journal is eagerly sought after for even individual issues. The completeness of such a run is rare.

Highlights: (1883) Vol. XI, #4: Mc Lachlan on B.C. gold coinage, 1838 side view token. (1889) Vol. I, #4: Mc Lachlan, important, 14 pp. on Canadian communion tokens and 8 pp. on copper hoard found in Montreal bank. (1894) Vol. III, #3 & 4: Important article on Holey Dollar including authorization proclamation. (1899) Vol II complete: Mc Lachlan, "Medals Awarded to Canadian Indians". (1908) Vol. V, #3: 14 pp. 1837 proposal for reform of Canadian currency. Important for view of U.S. panic of 1837 and implications for Canadian and U.S. tokens. (1910) Vol VII, #4: Highest importance! Mc Lachlan, 33 pp., "The Canadian Card Money". (1911) Vol. VIII, #1: Mc Lachlan, 21 pp. biography of Alfred Sandham, with halftone portrait, and list of medals he issued. (1913) Vol X. #4: Mc Lachlan, 18 pp. history of The Antiquarian and Numismatic Society on 50th anniversary. (1931) Morin, 12 pp. (in French) on (Canadian) Indian Peace Medals with 4 plates. (1932)

Morin, the society's collection of Peace Medals with 2 plates. (1933) Morin, the society's collection of military medals with 2 plates showing 10 Victorian Military Medals.

Condition: Those issues from the first series are chipped, fragile, and about half have disbound, present covers disbound. All copies are complete. The second series copies are chipped and faded, but sound. The third series, notably better quality paper, shows some cover chipping and fading. Many are uncut. The third series averages VG. The fourth series shows minute cover chipping on one issue; they are better than VG. In sum, the issues are all serviceable and complete. They show the wear that journals of their age would be expected to show. Still, a most satisfactory set.

Comments: Realizing that our records could not be complete, we estimate this to be the most extensive a run of CANJ offered at auction in years. Paul Nadin-Davis offered quite an extensive run in price lists #47 and #48 in 1986 where he estimated that only 4 or 5 complete sets exist in private hands. By comparison, about 20 complete sets of THE NUMISMATIST are in private hands. Sixteen consecutive complete volumes, a most noteworthy offering, comprise a healthy start to a complete set. (975.00)

470. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Third Series, Volume II. 1899. Complete in three issues. Mc Lachlan's series, "Medals Awarded to Canadian Indians". Chipping at backstrip of two issues. Issue "3 & 4" has about 15% of back cover missing. A good candidate for binding. Contents Fine. (75.00)

NOTE: The following six lots are each complete volumes of the CANJ, still a noteworthy offering.

471. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Third Series, Volume V. 1908. Complete in four issues. Minute chipping of covers. Covers discolored and faded. Features the reprinted 14 page 1837 article about proposed currency reform in Canada. Much important information about the Panic of 1837 and the circumstances involving Hard Times Tokens. Important. Aside from aforementioned defects, better than VG. (80.00)

472. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Third Series, Volume VI. 1909. Complete in four issues. Minute backstrip chipping at bottom. Covers faded and only minutely chipped. VG. (50.00)

473. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Third Series, Volume VIII. 1911. Complete in four issues. Covers faded. Minute chipping. Mc Lachlan's biography of Alfred Sandham, with listing of his medals and a halftone portrait. VG. (85.00)

474. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Fourth Series, Volume I. 1930. Four numbers complete in one issue. "The First Banknote Printed in Canada" (written in French); one plate of Quebec scrip of George III, 1772. Slight split at top of backstrip. Rust on staples. Pages uncut. Otherwise Fine. (50.00)

475. THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Fourth Series, Volume III. 1932. Four numbers complete in one issue. The society's

collection of Indian Peace Medals with two halftone plates. Covers minutely chipped and discolored. Contents Fine. (60.00)

476. **THE CENTINEL.** Official publication of the Central States Numismatic Society. 26 issues from Fall-Winter 1976-77 to Winter 1984. 12mo. CaC, glossy format. 8 complete volumes from Volume 25, 1977-78 to Volume 32, Winter 1984 except for the Summer 1980 issue. Thus, 22 of 23 consecutive issues. Readable, valuable numismatic articles in each issue, a superior regional journal. I find Calcoin News and The Centinel the two best of the genre. (40.00)

477. **COIN GALLERIES FIXED PRICE LISTS.** (13 lists). No. 4, 1955; No. 8, summer 1956; No. 9, fall 1956; No. 12 (February, 1958) to No. 22 (December, 1959), with Nos. 18 and 19 in one issue. These lists were the forerunner of the Numismatic Review listed below. Each is Octavo. The issues up to No. 14 are Fpls. only, averaging 28 pages of excellent foreign and ancients. Starting with No. 15, the issues are identical in layout and content to the Numismatic Review. These lists are quite scarce and in demand as they are necessary for completion of the Coin Galleries series. Conditions from Fine to VF. (25.00)

478. **COIN GALLERIES NUMISMATIC REVIEW AND PRICE LIST.** Complete from Volume I Number 1, January 1960, to Volume XI Numbers 4-6 (one issue) 1970. Also, the new series complete in four issues: Volume I Number 1, 1977 to Volume II Number 2, 1979. Here's the problem: Volume XII, 1971, seems to be complete with only one issue; Volume XIII, seems to be complete in two issues. Not only is our consignor's set this way, but so is our library reference copy. Each review averages 50 pages, beginning with about 8 pages of text: fascinating observations by the editor, James Risk; and scholarly articles about ancient, medieval, and foreign coins. The balance of each issue is Coin Galleries', Stack's non-U.S. division, quality fixed price list with extensive plates. There is a wealth of important information and significant offerings here..This is the first record we have of so complete a run being auctioned. Definitely scarce this complete. 63 issues. Condition averages Fine. (125.00)

479. **THE FRANKLIN MINT ALMANAC.** 11 volumes complete from Volume 1 Number 1, July 1969 to Volume 11 Number 10, 1980. 123 consecutive issues, with a few duplicates included just for the heck of it. Glossy, large format. Stored in six heavy, dark blue, board slipcases issued by the Franklin Mint. This house organ also contains articles about medals, coins, medallists, minting, and fine arts. Rarely offered so complete. Condition averages Fine. (100.00)

480. **INTERNATIONAL BANK NOTE SOCIETY.** 40 issues of this quarterly from Summer 1962 to Volume 16 No. 3, 1977. 12mo. Edited by Colin Narbeth and Yasha Bereseiner. 10 paper covered issues from Summer 1962 to March 1967. Glossy CaC and contents. Complete: Volumes 9, 11, 12, 13, 14, 15. 24 consecutive issues. This British publication is the bible for world paper money enthusiasts. The issues average 60 pages. This extensive a run is rarely offered. Average Fine or better. (75.00)

481. **MONEY TREND.** The monthly standard guide for post-1871 German coinage, Swiss, post-1848 Austrian, and Liechtenstein (where this is published). 75 issues from December 1972 to October 1982. Complete years in 11 issues: 1974, 1975, 1981. The 7 issues, which are quite scarce, before December 1972 are in a glossy tabloid-size layout. The balance are regular, glossy magazines of about 90 pages. Each cover is a full-color photo of a quality coin. Contents are German

language articles about all phases of traditional numismatics. Coin dealers everywhere use the monthly trends as a "Greysheet". Long runs like this are in major demand. Average condition fine. (125.00)

482. **NEW ZEALAND NUMISMATIC JOURNAL.** July-December 1958, Issue 29 to July 1975, Issue 52. 23 of 24 possible issues missing only Issue 36, 1962. The journal of the Royal Numismatic Society of New Zealand. Octavo. CaC. Besides New Zealand numismatics, NZNJ deals with all Commonwealth coinage. The journal was issued sporadically (hmmm, sounds vaguely familiar) so there is no correlation between volume and date.

Highlights: Sutherland's important "Currency Tokens of New Zealand 1857-1887"; "New Zealand Paper Money 1848-1862";, a 60 page monograph "The Iron Cross of Prussia and Germany from 1813-1945; 30 page "Money and Banking in New Zealand". Important journal. Each issue averages 45 pages with good plates with almost no advertising (I'll bet if they had a swimsuit issue they could have had advertising up their Kiwi's). This journal is rarely offered, especially a run of 17 years.

Condition: Fine or better. (I'll bet you thought I was going to get verbose. By the way, who is this Verbose that I'm supposed to get?) Our estimate for the 23 issues (95.00)

483. **SCHWEIZERISCHE NUMISMATISCHE RUNDSCHAU / REVUE SUISSE DE NUMISMATIQUE.** (Volume) XLV, 1966 to (Volume) 53, 1974. And (Volume) 59, 1980 to (Volume) 63, 1984, and (Volume) 65, 1986. The annual publication of the Switzerland Society of Numismatics (An American translation for Philistines). A total of 14 volumes of this prestigious, scholarly journal. Octavo. CaC. Glossy paper. Each issue averages 250 pages and about 24 quality plates. The important contents deal mostly with ancient Greek, Roman, and medieval coinage. The journal compares favorably with THE ANS Museum Notes. The articles may be in German, French, or English. Some English language authors are Jenkins, Vermeule, and Kraay. Any intermediate collector will find these valuable even with the language problem because of the extensive documentation. The covers are all Fine or better, with the contents all VF. (150.00)

484. **SCHWEIZER MUNZBLATTER / GAZETTE NUMISMATIQUE SUISSE.** 54 (of a possible 60) quarterly issues from 1966 (Jahrgang 16) to 1973 and from 1980 to 1986 (Jahrgang 36). Nine complete years of a possible 15 missing only: #68, Nov. '67; #69, Feb. '70; #83, Aug. '71; #86, May '72; #140, Nov. '85; and #141, Feb. '86. The quarterly journal of the Switzerland Society of Numismatics (Philistine translation for Americans). That's right; they put out two different publications. Octavo. Glossy covers and contents. Each issue averages 28 pages with 4 plates. Again, the articles are scholarly; may be written in any German, French, or English (certainly not American); and deal with ancient Greek, Roman, and medievales. Similar to the American Journal of Numismatics. The copies average VF. (75.00)

485. **THE SHEKEL.** The first 108 issues. Spring 1968, Vol. 1, No. 1. to July-August 1982, Vol. XV, No. 4. A quarterly until 1976 when it became bi-monthly. The journal of the American Israel Numismatic Association. 12mo. CaC. Each glossy issue averages 32 pages with illustrations. Many of the articles are of importance to the collector of ancients in addition to Israeli coinage. Also covered extensively: medals, tokens, currency, coinage of

Palestine. Such a complete run is rarely offered. The first two issues are inscribed on the cover by Nathan Sobel, the editor-in-chief. Average VF. (125.00)

486. THE SOUTH AUSTRALIAN NUMISMATIC JOURNAL. Volumes 2 to 11, 1951 to 1961. Complete except for Volume 4, #1 (January 1953) and Volume 5, #1 (January 1954). 42 of 44 issues. 9 complete years. Octavo. Grey CaC. Official organ of the Numismatic Society of South Australia. Average 8 pages per issue (the same amount of text The Numismatist has once the ads are removed). Title changed to AUSTRALIAN NUMISMATIC JOURNAL in April 1958, Vol. 9 #2. A few issues with plates. A major source for generally unavailable, important information on Aussie gold, patterns, tokens, collections, decimals, ad infinitum. Of great value. Rarely offered. The issues appear identical in condition, making storage or rebinding easy. The backstrips show rubbing, but no separations. Dampstaining visible on bottom of some gutter margins. Paper contents show fading. Some writing ("Aussie gold" or "Tokens, Save") on ten issues. VG. (125.00)

487. STACK'S FIXED PRICE LIST. (Brace yourself; I am going to ramble.) The source for this information is Remy Bourne's authoritative listing in Cal Wilson's Repository, September 1985. Here we go; 1940 to 1944, 30 of the first 32 lists missing only the unnumbered first one from 1939 AND #11. It is possible no #13 was issued as #12 & #14 are both dated Jan. 1942. Then we go to lists 34-A (unlisted by R.B.), 35, a different 35 (unlisted 63 pp. a shortened version of the other #35), 38, 40, 41, 50, 51, 54, 57, 58, 61, 62, 63, 64, 2 different 66s, 66-A, 67-A, 70, 73, 74, 75, 76 (unlisted by R.B.).

Highlights: #9 - 271 large cents with 16-1793s and the "finest known" Jefferson head cent; #14 - The A.C. Gies Large Cents with Important Die Varieties (An EACer paid \$25.00 for this issue), 831 (!) large cents with 407 "Sheldons", 21-1793s, 86-1794s; #16 - 182 Hard Times Tokens; #19 - 104 NJ cents; #20 - Incredible colonials, 133-1787 Connecticut coppers, Immune Columba in silver (Ex- Maris, Crosby plate VII, no.31), Geo. Clinton NY cent; #22 (unlisted by R.B.) - All Roman coins up to Septimus Severus, 544 lots; #23 - 82 "Sheldon" large cents, 9-1793s; #25 - 35-1788 Connecticut; #27 - 475 (!) bust halves, 20 before 1800, 407 NY storecards; #31 - 15 important large cents, 1804 gem unc perfect die, 1804 gem unc broken die; #76 - About 100 colonials, about 150 large cents (S-13, EF @ 3500, S-189, VF @ 3500). 7 plates

Condition: The numbered lists to #34-A are two-holed for binder as issued. The cover of #3 is chipped and dampstained at the bottom. Six of the early issues are yellowed. Otherwise, no major defects, and quite serviceable without risk. The first 30 lists average VG, the remainder better than Fine.

Comments: Stack's material is in great demand. The early fixed price lists are much scarcer than the in-demand pre-1940 auction catalogues. Again, there is much usable, valuable information here in all areas. I emphasize colonials and large cents because members of the Early American Coppers (the aforementioned EACers) club truly buy and use research material and I am a EACer, among other things. 54 issues overall. (150.00)

488. STACK'S FIXED PRICE LIST. (No, you are not having deja-vu; we've just got some scarce duplicates. You can relax; I'm not going to bore you again. Well, anyway with these.) 17 fixed price lists from 1940 to 1948: Numbers 5, 6, 16, 18 - 26, 29-31, 33, 41. If you can force yourself to check the tirade above, you will see

that some of the important issues are in this lot. All copies are sound and complete. Condition averages VG. (45.00)

489. **WHITMAN NUMISMATIC JOURNAL.** 60 issues complete, in five volumes. January 1964 to December 1968. A vastly underrated, and underappreciated journal. The authors who submitted articles are a numismatic all-star team: Bowers, Breen, Julian, Kenney, Bolender, Charlton, Newman, Bressett, Taxay, Glaser, Willey, Yeoman (Tinkers, Evers, to Chance). The topics cover the the broad plain of American numismatics (occasionally I wax poetic, other times I wax floors) with regular Canadian, and world columns. This is a journal to be read and used. VF. (85.00)

490. **WORLD COINS MAGAZINE.** Complete in thirteen volumes. 147 issues from January 1964 to March 1976. Another one of the important periodicals that is deceased. Each issue featured a different theme: Bristish Commonwealth, Moslem, Ancients, Israel, Gold, Currency, Latin America, Russia, Oriental, Germanic and others (I'm doing this from memory; not bad. I wish I could remember my phone number, though). Not only are the articles important, but I found the dealer ads to be important reference material. The sad thing is that this periodical was making a profit when it was absorbed by Coin World, but that's another story. Average better than Fine. (125.00)

CONSIGNMENT VIII

There are many important, elusive, in-demand, and scarce references in this consignment.

491. Bedoukian, Paul Z. **COINAGE OF CILICIAN ARMENIA.** The American Numismatic Society, NNM-147. 1962. Octavo. CaC. 494 pp. 48 plates. Covers the time period 1080-1375. The standard reference. All quality sources on medieval coinage are scarce. This one is quite scholarly and in demand. Covers lightly soiled, otherwise Fine. (50.00)

492. Bowers, Q. David. **THE HISTORY OF UNITED STATES COINAGE AS ILLUSTRATED BY THE GARRETT COLLECTION.** 1979. third printing. Quarto. Black cloth. 572 pp. Many color and b&w plates. Our choice as the best survey of American numismatics: 19th and 20th century numismatic history, early American coinage, history of the mint, private and territorial gold. Too often books like this are taken for granted and not really read. Despite all the trendy, transitory nonsense of precision grading, we really are living in the Golden Age of numismatic research. Giants like Bowers, Breen, Julian, and Taxay, among others, are generating a true legacy of readable scholarship. Near Mint. (30.00)

493. Breen, Walter. **A COINER'S CAVIAR: WALTER BREEN'S ENCYCLOPEDIA OF UNITED STATES AND COLONIAL PROOF COINS, 1792 TO 1977.** 1977. Quarto. Brown cloth, gilt. Dust jacket torn at bottom of backstrip. The best work of its kind. In major demand. VF. (60.00)

494. Carson, R.A.G. and Collin Kraay. **SCRIPTA NUMMARIA ROMANA. ESSAYS PRESENTED TO HUMPHREY SUTHERLAND.** 1978. Octavo. Blue cloth, gilt w/dj. 250 pp. frontis portrait. 24 fine plates. 16 scholarly papers presented to honor his 70th birthday by luminaries: Kraay, Crawford, Vermeule, Kent, Stewart, Carson, et al. Near Mint. (35.00)

495. Eckfeldt, Jacob R. and William Du Bois. **NEW VARIETIES OF GOLD AND SILVER COINS, COUNTERFEIT COINS, AND BULLION; WITH MINT VALUES.** 1851. Second edition. 12mo. Original black cloth, gilt. 72 pp. 5 plates. The titled section of the work only refers to the first part. The second section by Du Bois, "A Brief Account of the Collection of Coins Belonging to the Mint of the United States, More Particularly of the Antique Specimens," rarely gets mentioned. Yet, it is an important monograph with annotations of the Mint's Roman holdings. "Spine ends and corners a bit worn, internally fine." (George Kolbe's description of this lot) Scarce. (125.00)

496. Empire Coin Company. **EMPIRE REVIEW.** Issue #15. March-April 1962. Octavo. Self-covered. 40 pp. Ills. 9 pages of colonials to large cents, the latter ex-Gilroy. Also Fuld's reference collection (one lot) of Talbot, Allum, and Lee cents. And cute, now embarrassing, pictures of Bowers and Ruddy. Once folded. Otherwise Fine. (15.00)

497. Empire Coin Company. **EMPIRE REVIEW.** Issue #18. July-August 1963. Octavo. Self-covered. 72 pp. Ills. Graffiti on cover. Otherwise Fine. (15.00)

498. Empire Coin Company. **JUBILEE OF COIN VALUES.** January 1966. Quarto. Self-covered. 48 pp. Ills. Scarce. In major demand. VF. (40.00)

499. Hathaway and Bowers Galleries. **CHOICE AND DESIRABLE COINS**. Volume III, Catalogue No. 5. May 1970. Quarto. Self-covered. 36 pp. Ills. Nice colonials and coppers. In the format of the pre-#15 B & R Rare Coin Reviews. Even has the same crest, except for an "H" instead of an "R". Scarce. In demand. Fine. (30.00)

500. Bowers and Ruddy Galleries. **RARE COIN REVIEW**. No. 11. June-July, 1971. Quarto. Self-covered. 60 pp. Ills. B & R's second RCR under their name; the first was issue No. 10 (March-April 1971). Excellent Vermont Coppers. "The Finest Collection of Assay Medals Ever Listed For Sale." Better than the Fine copy in Wilson XV which sold for \$110.00 (!) One corner fold on cover. Fine. (75.00)

501. Grant, Michael. "THE HIGH ART OF GREEK PORTRAITURE" in HORIZON MAGAZINE. September 1963. Volume V, No. 7. Folio. Brown cloth. A color photo of an Agrippina sestertius on the cover. Pages 33-41. 26 fine enlarged illustrations of Roman coins from Augustus to Maximinus II. A readable overview. The coins illustrated are from five different museum collections, including the ANS. Near Mint. (15.00)

502. Griffiths, William H. **THE STORY OF THE AMERICAN BANK NOTE COMPANY**. 1959. Quarto. Maroon quarter cloth, gilt. 92 pp. Ills. 8 fine double page, steel plate engraved plates of vignettes. Plastic dust jacket as issued to protect cover vignette. These were distributed by ABNS not sold. While this is an important history of ABNS from 1795 to 1958, the outstanding, beautiful vignettes of the presidents, foreign dignitaries, birds, animals, trains, ships, and styles of engravings represent the epitome of the craft. (I really like this puppy.) In great demand. VF. (125.00)

503. Head, Barclay V. **HISTORIA NUMORUM; A MANUAL OF GREEK NUMISMATICS**. 1887; first edition. Quarto. Quarter leather and brown cloth, gilt. 805 pp. Ills. The author, Deputy Keeper of the Coins for the British Museum, created the first major reference for Greek numismatics in response to the British fascination with the heady treasures of then-recent archaeological digs in Greece. He reworked this superior effort into the 1911 second edition which is still unsurpassed by a single volume. The leather is rubbed, but the binding is tight (sounds like a country-western tune). I should look so good when I am 100. The contents are Fine. Overall, better than VG. (75.00)

504. Hill, G.F. **A GUIDE TO THE PRINCIPAL COINS OF THE GREEKS FROM CIRCA 700 B.C. TO A.D. 70 BASED ON THE WORK OF BARCLAY V. HEAD**. 1959. Octavo. Green cloth. 108 pp. 52 fine plates. A reprint of the 1932 revision of Head's COINS OF THE ANCIENTS, with the assistance of Stanley Robinson and G.F. Jenkins - the Four Horsemen of the British Museum Coin Room (Is that irreverent enough?). The plated coins are from the museum's collection. Bad news: some barbarian tried to remove a sticker from the cover leaving a 2" by 3" black sticky spot. The covers are otherwise VG, with the contents nearly VF. (25.00)

505. Hocking, W.J. **CATALOGUE OF THE COINS, TOKENS, DIES AND SEALS IN THE MUSEUM OF THE ROYAL MINT. VOL. I: COINS AND TOKENS**. 1906. Octavo. Blue cloth. 460 pp. Of note: some important information about Massachusetts silver, Baltimore silver, the American Plantation coinage, proposed coinage for Carolinas in 1754, Rosa Americana coinage, the Virginia halfpenny, and Sommer

Islands. The British version of the Comparette's U.S. Mint Collection series. Important descriptions of their collection of hammered pennies, and the Irish and Scottish series. Spine sunned, with a half inch split at its top. Foxing on the first five pages. Tight binding. Contents Fine. (50.00)

506. Kraay, Colin M. and Max Hirmer. **GREEK COINS**. 1966. Quarto. 396 pp. 20 fine color photographic plates. 200 fine b&w plates totalling 1329 coin illustrations. Clain-Stefanelli 1849. The plates are superb. Generally acclaimed to be the most outstanding photographic record of Greek coinage; this is not to denigrate the scholarly text. Ex-library, but no damage, and only a few insignificant library markings. Rebound in red cloth, gilt, by Alan Grace, "the master" bookbinder now living in Kentucky. In great demand (Both Alan Grace and this book). The new binding is virtually mint, the contents fine. (200.00)

507. Mattingly, Harold and Edward Sydenham. **THE ROMAN IMPERIAL COINAGE. VOL I: AUGUSTUS TO VITELLIUS**. 1948 reprint of the 1923 original. Octavo. Green CaC. 276 pp. 16 fine plates. The standard reference. Volume I covers a heavily collected area. Many dealers find this work useless because there are no columns listing "bid" for MS-60.2 to MS-68.08. Fine. (25.00)

508. Nunn, C. Hearn. **NUNN'S NUMISMATIC MAGAZINE. 1886-1887, Volumes 1 & 2**. 16mo. Bound in black half leather and marbelled boards and endpapers. Red morocco label, gilt. 192 pp. Covers rubbed. Joints weak. Contents VG. 1888-1889, Volumes 3 & 4. Bound identically to the previous volumes. 280 pp. Condition identical to previous volumes. 1892-1893, Volumes 7 & 8. 12mo. Halfbound leather, gilt. Red morocco label. Raised bands. 212 pp. Covers rubbed at extremities. Binding sound. Contents near Fine. "A monthly journal devoted entirely to coin collectors." This differs from the Numismatic Chronicle and the BNJ as it is geared for the average collector. Some noteworthy series of brief articles, "Copper Coinage of the British Colonies in America," "The Pennies of the First Three Edwards," and a 24 part series listing 171 19th century silver tokens.

Nunn was founder of a British numismatic organization called "The Numismatic Association". Charter member number 11 was George Heath, founder of The Numismatist. Because The Numismatist followed Nunn's magazine by two years; because of the similarity of the early issues; because Heath issued a call for an organization one year after the formation of Nunn's "Numismatic Association"; and because Heath selected the name "American Numismatic Association", we believe (and will expand upon our research in an upcoming Out on a Limb) that Nunn's magazine is of great historical importance as an influence upon George Heath, his founding of The Numismatist, and the start of the ANA. For the three bound groups. (100.00)

509. Rawlings, Gertrude B. **THE STORY OF THE BRITISH COINAGE**. 1898, first edition. 16mo. Blue pictorial cloth, gilt. 224 pp. 108 ills. Intended as "a brief introduction [into] the origin and history of our coined money." From the preface an explanation of why Irish coinage seems to have been herein slighted, "the history of Anglo-Irish coinage is in a state of confusion from which it is almost impossible to construct a narrative suitable to [this type of book]." The "troubles" as the Irish refer to them affected even this modest work. Scarce. VG. (25.00)

510. The Royal Numismatic Society. **THE NUMISMATIC CHRONICLE: VOLUME 144**. 1984. Octavo. Red cloth. 264 pp. 43 fine plates. 20 scholarly monographs

on ancient and medieval coinage. Sufficiently erudite and esoteric as to be a guaranteed cure for insomnia. (I can put you to sleep in five footnotes). Surprise! I found a neat 8 page illustrated monograph by the outgoing (as in "lameduck", not necessarily "gregarious") president, D.G Sellwood, the Parthian expert. "The Relations Between Art And Technology In Coinage" with discussion of Thomas Simon's problem with the dies for the Cromwell crown. Near Mint. (24.00)

511. Stack's. [THIRD SALE]. April 18, 1936. 46 pp. 940 lots. Neatly handpriced. Small format. Gray CaC. Cover sticker, as issued, "Don't Look at the Last 4 Pages." (I admit it; I looked. It's a four page FPL; Stack's first? The official lists started two years later.) 23 Bungtown coppers, 3 territorial gold patterns. Scarce. In major demand. Some minor notations neatly on cover. A defect-free Fine. (50.00)

512. Stack's. [TWENTY-NINTH SALE]. June 3 & 10, 1939. Small format. CaC. 76 pp. 1796 lots. 15 plates. 800 lots priced in margin. Good foreign silver. 1804 dime in VF @ \$52.50. Early plated Stack's are very scarce. Covers VG; contents Fine. (35.00)

513. Steigerwalt, Chas. **STEIGERWALT'S ILLUSTRATED HISTORY OF UNITED STATES AND COLONIAL COINS.** 1884. Sigler 2443. 12mo. Self-covered. 40 pp. Ills. (woodcuts). The cover illustration is an 1804 dollar with notation, "\$500 to \$1000 paid for this piece." A survey for the "great body of collectors." Rare. In major demand. In 1980 Kolbe listed one saying, "no [previous] record of a modern sale has been found." In Katen's sale #54, he said he was offering the first copy he had seen in 35 years of business. Each noted that this was missing from the Fuld sale. Our records indicate three other listings since 1960 other than this. Covers chipped and soiled, with some notations and underlining in pencil (looks like an Eberhard Faber forerunner, circa 1893 done on a Tuesday in June, about 3:30 P.M. EST., but that's only a guess), but sound. The contents are sound, defect-free, on heavy paper, and are near Fine. (200.00)

514. Sydenham, Edward A. **HISTORICAL REFERENCES ON COINS OF THE ROMAN EMPIRE FROM AUGUSTUS TO GALLIENUS.** 1917. Octavo. Pc. 151 pp. Ills. Sydenham states that ancient coins are key to the study of history as they corroborate, fill in blanks in written history, and contradict the written record. This readable history is fascinating. I wish I had time to read it, but Myron has a cattle prod against my database. The paper covers are worn and should be rebound which was the Spink's original assumption. The contents are fine. (20.00)

515. Thorburn, W. Stewart. **A GUIDE TO THE COINS OF GREAT BRITAIN AND IRELAND IN GOLD, SILVER, AND COPPER FROM THE EARLIEST PERIOD TO THE PRESENT TIME.** 1888; Second edition. Note: Did you ever try to see the computer screen with your cat sitting atop the monitor pendulumming (new word for all you Edwin Newman English language purists) her tail in front? 12 mo. Rebound in (gauche) red boards. (Get this sucker to Alan Grace ASAP for a quality binding) 164 pp. 8 embossed colored plates; 29 engraved plates, some colored. Thorburn's purpose, "a single volume...at once accurate, complete, and cheap." (My kind of guy!) This was issued in four editions until 1905. The embossed plates are absolutely free of toning. Scarce. (50.00)

516. Zieber, Eugene. **HERALDRY IN AMERICA**. 1895. Quarto. Decorated red cloth, gilt. Many ill. Plates with tissue guards. Frontis vignette of the Arms of the U.S. Ex-Wilson XV. The only copy of the first edition we ever seen listed anywhere. The 1909 second edition, identical except for being Octavo, is what is normally offered. Valuable for seals, crests, and arms for currency, tokens, and medals. Rare. Fine. (100.00)

CONSIGNMENT IX

517. American Numismatic Society. **NUMISMATIC LITERATURE**. 52 of 53 consecutive issues from #58 (January 1962) to #111/112 (September 1984), missing only #109. The issues up to #77 (October 1966) are self-covered. From #78 (June 1967) on each is red CaC. Scarce this complete covering 23 nearly complete years. Up to # 77, condition averages Fine; those from #78 average near Mint. For the 52 issues (125.00)

518. Ancient Coin Club of America. **THE VOICE OF THE TURTLE**. From Volume IV (1965) to Volume VII (1968). Missing only the July 1965 issue to be complete. This 12mo periodical is highly thought of. The first two 1965 issues are mimeo'd; Argonaut in Chicago began printing these on glossy paper with the March 1965 issue. In 1967 the name was changed to The Turtle. The name was changed again in 1968 to The North American Journal of Numismatics. Isn't it amazing that publications become more dignified and image conscious right before they go out of business? (Remember, as Fernando says, "It's more important to look good than feel good.")

Volumes IV to VI are complete each year in 12 issues. Volume 7 is complete in 6 issues. We have included Volume 8, Number 2 (February 1969 and the first issue of the year) as it explains the emission sequence. So there are 42 of 43 possible issues. (Prior to Volume IV, only about ten mimeo'd numbers were produced). We haven't even mentioned the quality of this journal; for example, Laing and Malter have written significant articles. This is a scarce, elusive journal. As for condition, Volume IV is VG to Fne with a cover tear on the January issue. The remaining issues average VF. For the 42 issues (60.00)

519. **ANNUAL REPORT OF THE DIRECTOR OF THE MINT, INCLUDING THE REPORT ON THE PRODUCTION AND CONSUMPTION OF GOLD AND SILVER FOR THE CALENDAR YEAR**. 11 reports from fiscal years 1957, and 1962 to 1971. Octavo. CaC. In addition to the statistical information, there are plates illustrating inaugural and assay medals. Also there are important reports covering the coin shortage of the sixties and the changeover from silver to cupro-nickel. Conditions average Fine. (25.00)

520. Bachtell, Lee M. **WORLD DOLLARS PICTORIAL GUIDE 1477-1800**. 1980. Quarto. Red cloth. 482 pp. Ills. Vals. 3800 photos of talers. A listing of 8000 different types and dates. A good one volume reference. Fne. (25.00)

521. Bowers and Ruddy. **NUMMUS MUNDI**. 5 issues complete with **ANCIENT COINS** complete in two issues. Started by Frank Draskovic, this quasi-"Rare Coin Review" of world and ancient coins began with issue no. 1, March 1979 and was complete with issue no. 5, Summer 1981. Also issued with Nummus Mundi were the two Ancient Coins of Fall 1980 and Summer 1981. Totalling 200 pages, these are each Quarto, glossy self-covered, well-illustrated, and feature high quality coinage. Necessary for the collector of the Rare Coin Review, which just happen to be listed next. The condition of each is VF. For the seven (20.00)

522. Bowers and Ruddy (also Merena). **RARE COIN REVIEW**. 47 consecutive reports from No. 15 (Aug.-Sept. 1972) to No. 60 (Spring 1986). Quarto. CaC through No. 35. Self-covered from no. 36. Bowers and Merena begins with No. 47. The numbers from 15 to 20 are particularly scarce. Number 24-A, exclusively

world coins, is particularly in demand. Quite elusive this complete. The best long-term house organ. Except for No. 53 which has a badly soiled rear cover, and No. 18 which has a sunned spine, the other 45 are VF to Mint. (250.00)

523. Breen, Walter. **DIES AND COINAGE**. 1965. 16 mo. CaC. 33 pp. Ills. From the "Hewitt's Numismatic Information" series. Quite important, in demand, and now scarce. VF. (8.00)

524. **COIN WORLD**. Volume I complete in 38 issues. Includes Vol. I, No. 0, March 1960, the scarce promotional copy, covers yellowed with age. Volume I, No. 1 (April 21, 1960), and Volume I, No. 2 (April 28, 1960) each have the coupon on the inside back cut out. Complete and undamaged from Volume I, No. 3 (May 5, 1969) to No. 37 (December 29, 1960). Although stored in a plastic (no, not slabs) bag, the copies show some yellowing and chipping on the edges. Quite scarce, and in major demand. Remember, these are 27 year old newspapers. All are intact, complete, and fully usable. Call them from Good to Fine. (75.00)

525. **COIN WORLD ALMANAC, 1976**. 1975, first edition. 12mo. Pictorial CaC. 829 pp. Truly underrated. Includes history, laws, important collections, trends, and the Katens' 70 page "Book Edition" - a valuable bibliography. Covers show rubbing, still VF. (10.00)

528. Florange, Jules. **L'AMOUR ET MARIAGE DANS LA NUMISMATIQUE**. 1936. Octavo. CaC. Unopened. A cataloging of 560 coins, medals, and tokens about love and marriage. Written in French, but easily understandable (unlike the natives). VF. (18.00)

529. Friedberg, Robert. **COINS OF THE BRITISH WORLD: COMPLETE FROM 500 A.D. TO THE PRESENT**. 1962. Quarto. Yellow cloth w/dj. 210 pp. Ills. Vals. Quite useful for identification of the hammered issues, especially the pennies. VF. (15.00)

530. Friedberg, Robert. **GOLD COINS OF THE WORLD: COMPLETE FROM 600 A.D. TO THE PRESENT**. 1980, fifth edition. Quarto. Green boards w/dj. 484 pp. Ills. Vals. Each list averages 12 pp., 300 lots, and 2 plates. The Gans lists are elusive and eagerly sought. They have excellent ancients and medievales. Average Fine. For the 15 lists. (25.00)

Anglo-Saxon and Norman coins. Mack's collection is the basis of SYLLOGE OF BRITISH ISLES, NUMBER 20, (1973). Mack's early pennies are of the highest importance. Excellent cataloguing, text, and pedigrees. VF. (20.00)
534. Hirsch, Gerhard (Munich). **A Grouping of 43 Auction Catalogues.** Octavo. CaC. The catalogues begin with Sale 43 (June 21-23, 1965) and go to Sale 118 (November 20-22, 1979).
